

ORGANIC SUPPLIER SUMMARY – HANDLERS AND PROCESSORS

Provide details about your current suppliers of organic ingredients and/or products in the table below.

- If you prefer, you can submit your list in other formats (e.g., Excel, Word, etc.).
- If you do not have your suppliers sourced for this coming season, provide as much information as possible and have an updated and current copy of this list at your annual inspection.
- You must verify that all incoming ingredients and/or products are sourced from a compliant supplier and have a copy of the current organic certificate available for inspection.

Tips for Verifying Organic Supplier Compliance:

All organic products sold in the United States must have accompanying documentation that verifies the product was certified by a USDA accredited agency, **AND** verifies that the product in question was certified according to USDA National Organic Standards, **OR** have documentation that verifies the product was certified by a recognized government, or covered under an equivalency agreement.

- For a current list of accredited agencies go to the Certifier page on the National Organic Program website.
- For a current list of recognized governments or equivalency agreements go to the International Issues page on the National Organic Program website.

Supplier Name	Organic Ingredients and/or Products	Certification Agency	Do you have the current organic certificate on file?
