

PREPROPOSAL STATEMENT OF INQUIRY

CR-101 (June 2004)
(Implements RCW 34.05.310)
Do **NOT** use for expedited rule making

Agency: Dept. of Agriculture

Subject of possible rule making: Chapter 16-350 WAC, Registration and Certification of Fruit Tree Planting Stock. The department is considering adopting changes to the fruit tree planting stock rule to better align with the National Clean Plant Network. This proposal would adopt the format of the fruit tree "State Level Model Regulatory Standard" of the National Clean Plant Network, modify the eligibility requirements for registered prunus trees, and clarify eligibility requirements for imported propagation material.

Statutes authorizing the agency to adopt rules on this subject: RCW 15.14.015, and chapter 34.05 RCW

Reasons why rules on this subject may be needed and what they might accomplish: The National Clean Plant Network (NCPN) was created to protect specialty crops from the spread of economically harmful plant pests and diseases. Its mission is to provide healthy planting stock that is easier to propagate, requires fewer chemical inputs, and produces higher crop yields and better crop quality. The NCPN does this through programs which screen plant selections for viruses and other diseases that can be spread by contaminated planting stock. Modifying our certification program is necessary to continue to reduce the chance of introduction of exotic pests that can be difficult and costly to control and to further standardize our program with the NCPN model.

Identify other federal and state agencies that regulate this subject and the process coordinating the rule with these agencies:
None

Process for developing new rule (check all that apply):

- Negotiated rule making
- Pilot rule making
- Agency study

Other (describe) Department staff will discuss any proposed amendments with affected stakeholders. Affected stakeholders will also have an opportunity to submit written comments on the proposed rules during the public comment period and will be able to present oral testimony at the public hearing.

How interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication:

(List names, addresses, telephone, fax numbers, and e-mail of persons to contact; describe meetings, other exchanges of information, etc.)
