Schools & Licensed Day Cares Pesticide Notification & Records Inspection Save Inspection	
Signature of Owner or Authorized Agent:	I hereby grant permission to the Department, its agents or representatives, to inspect or investigate as authorized. Signature: _____
1. School District	_____
2. Applicator/Operator	_____
3. License Number & Categories	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
4. Applicator / operator currently licensed with proper categories?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
5. Pesticide applications made by commercial applicators?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
6. Written notification describing the school's pest control policies and methods, including posting and notification requirements is available to interested parents, guardians, and employees upon request.	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
7. Notification system that, as a minimum, notifies interested parents or guardians of students and employees at least 48 hours before a pesticide application to a school facility? (Excludes antimicrobials, inaccessible baits, and emergency application; prenotification not required if school is unoccupied for at least 2 consecutive days post application)	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
8. Notification system includes posting of the notification in a prominent place in the main office of the school?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
9. Location of posting	_____
Do all notifications to parents, guardians, and employees contain the following information? <input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A	
10. Heading states: "Notice: Pesticide Application"?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
11. Product name of the pesticide to be applied?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
12. Intended date and time of application?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
13. Location to which the pesticide is to be applied?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
14. Pest to be controlled?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A

15. Name and phone number of a contact person at the school?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
16. School facility application is made within 48 hours following the intended date and time stated in the notification?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
17. Notification process is repeated if application not made within 48 hrs?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
18. School, at the time of application, posts notification signs for applications made to school facilities other than school grounds at the location of the application.	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
19. Notification signs for applications made to school grounds by school employees are placed at the location of the application and at each primary point of entry to the school grounds?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
Notification signs for applications made to school facilities other than school grounds meet the following standards? (School is not liable for removal by unauthorized persons.)	
20. Signs are a minimum of 8 1/2 by 11 inches?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
21. Heading contains: "Notice: Pesticide Application"?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
22. Product name of the pesticide applied included?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
23. Date and time of application listed?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
24. Sign includes location to which the pesticide was applied?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
25. Pest to be controlled named?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
26. Sign includes name & phone number of a contact person at the school?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
27. Notification signs printed in colors contrasting to the background?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
Notification signs for applications made to school grounds meet the following standards? (School is not liable for removal by unauthorized persons.)	
28. Signs are a minimum of 4 by 5 inches?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
29. Headline contains the words: "THIS LANDSCAPE HAS BEEN RECENTLY SPRAYED OR TREATED WITH PESTICIDES BY YOUR SCHOOL"?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
30. Footer contains: "FOR MORE INFORMATION PLEASE CALL"	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
31. Footer provides: Name and telephone number of contact person at school?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
32. Notification signs printed in colors contrasting to the background?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
33. Notification signs remain in place for at least 24 hours from the time the application is completed?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A

34. Notification sign remains in place consistent with the restricted entry interval (REI) time as required by the label if REI is greater than 24 hours?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
35. When an emergency school facility application is made, notification consistent with the school's notification system occurs as soon as possible after the application?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
36. Records of all pesticide applications to school facilities, including an annual summary of the records, are readily accessible to interested person?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
37. Pesticide application records comply with Washington state laws and rules?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
PESTICIDE STORAGE & WASTE AND CONTAINER DISPOSAL	
38. Pesticides are stored or disposed of without endangering humans and their environment or endangering food, feed, or any other product that may be stored, with such pesticides? [E.g. Not stored over or adjacent to food or feed.]	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
39. The pesticide storage area and pesticide containers are stored with good, generally accepted, housekeeping practices?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
40. Pesticides labeled with the signal word "danger/poison" and their containers are stored in one of the following enclosures which, when unattended, are constructed and locked (except unattended trucks or trailers as described below) to prevent children, unauthorized persons, livestock, or other animals from gaining entry: closed vehicle, closed trailer, building or room or fenced area with a fence at least 6 feet high, foot locker or other container which can be locked, unattended trucks or trailers which have solid sideracks and secured tailgate at least 6 feet above ground, ramp or platform level, bulk storage containers 50 gallons and larger with tight screw-type bungs and / or secured or locked valves?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
41. Storage areas for pesticides and their containers labeled with the signal words "danger/poison" are posted with warning signs that show the skull and crossbones symbol and the words: "Danger/Poison (or Pesticide or Chemical) Storage Area/Keep Out" in letters large enough to be legible at a distance of 30 feet; the warning signs are posted on approved enclosures, when such enclosures are unattended, at each entrance or exit from a storage area and on each exterior wall, so that a sign is visible from any direction; if the pesticide storage area is contained in a larger, multipurpose structure, warning signs shall be clearly visible on each exterior wall of the structure within 30 feet of the pesticide storage area and from the main entrance to the larger structure (except if the main entrance has a sign that is visible from the entrance which clearly identifies the possibility that pesticides may be stored on the premises)?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
42. Pesticides labeled with the signal word "danger" when not accompanied by the signal word "poison," pesticides labeled with the signal word "warning" and pesticides labeled with the signal word "caution" and their containers are stored in secured storage out of the reach of children in one of the enclosures listed above (metal containers, 28 gallons and larger, with tight screw-type bungs and/or secured or locked valves are considered secured storage)?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
RODENT CONTROL	
43. If you manage rodents, who does the pest control: school employees, CA, or both?	<input type="radio"/> school employees <input type="radio"/> CA <input type="radio"/> both <input type="radio"/> N/A
44. If you have rodent problems are they associated with: structures, landscapes, or both?	<input type="radio"/> structures <input type="radio"/> landscapes <input type="radio"/> both <input type="radio"/> N/A
45. What rodent control methods are used: traps, rodenticides, other [comment]?	<input type="radio"/> traps <input type="radio"/> rodenticides <input type="radio"/> other <input type="radio"/> N/A
46. If rodenticides are used, does the use comply with the application of rodent control pesticides, WAC 16-228-1380 (when applicable) and labeling requirements?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
OTHER	
47. Waste pesticides are properly disposed of at approved disposal sites? Waste pesticides are any pesticide formulation which cannot be used according to label directions in Washington state because of cancellation or suspension of its federal or state registration, or deterioration of the product or its label, and any pesticide	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A

formulation whose active ingredients are not clearly identifiable because of label deterioration or because the pesticide is not stored in its original container.	
48. Empty pesticide containers are adequately decontaminated and disposed of at approved disposal sites?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
49. Appropriate sign on powered apparatus?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
50. Application equipment calibrated?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
51. Mix/load site condition?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
52. Spill kit available where ever pesticides are stored?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
53. PPE available?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
54. Power apparatus is safe, clean, in good repair, and maintains a uniform mixture?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A
55. Certified applicators carry an MSDS when applying pesticides?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NFR <input type="radio"/> NI <input type="radio"/> N/A

PESTICIDE MANAGEMENT DIVISION

PO Box 42589 • Olympia, Washington 98504-2589 • Toll Free 1-877-301-4555 • Fax 360-902-2093

The following are pesticide-related criteria (and their supporting laws and regulations) that will be evaluated during inspections of public kindergartens, elementary and secondary schools, and licensed day care centers by the Washington State Department of Agriculture, Pesticide Management Division.

	REQUIREMENT / QUESTION	COMMENTS	RCW / WAC
1.	Is the person(s) applying pesticides licensed? If licensed, does the applicator have the correct license?	For all pesticides (such as herbicides, insecticides, & rodenticides) except anti-microbial pesticides (e.g. disinfectants). A Public Operator license is required if Restricted Use Pesticides (RUP) and/or a powered apparatus are used. An unlicensed person can apply RUP's or use a powered apparatus if under the direct supervision of a properly licensed applicator.	RCW 17.21.150 (8) RCW 17.21.150 (11) RCW 17.21.150 (15)* RCW 17.21.220 (2) WAC 16-228-1231 (1)* WAC 16-228-1500 (1) WAC 16-228-1545 (1) *for RUP
2.	If licensed, does the applicator have the correct categories?	A category (e.g. Ornamental Weeds, Ornamental Insect & Disease, Pest Control Operator General) is required in all areas for which RUP's and/or powered apparatus are used.	RCW 17.21.150 (11) WAC 16-228-1500 (1) WAC 16-228-1545 (1) (3)
3.	Are pesticides applied by non-school employees, such as commercial applicators or private citizens applying pesticides gratis?	If yes, notification and posting applies and records are required for the annual summary.	RCW 17.21.415 (3) (4) RCW 17.21.415 (6) RCW 17.21.415 (10)
4.	Is an annual notification of the school district's pest control policies, methods, and notification procedures available to interested parents and staff?	Parents and staff should be informed that the notification is available and how it can be obtained.	RCW 17.21.415 (2) RCW 28A.320.165
5.	Is there a notification system that notifies interested parents or guardians of students and employees at least 48 hours before a pesticide application to a school facility?	Excludes antimicrobials, inaccessible baits, and emergency applications*; pre-notification is not required if school is unoccupied for at least 2 consecutive days post application. *Notification must be made as soon as possible for emergency applications (see #17).	RCW 17.21.415 (3)
6.	Notification system includes posting of the notification in a prominent place in the main office of the school?	Must be posted in the main office of the school; however, many schools also place the notification sign on the main doors.	RCW 17.21.415 (3)
7.	All pre-notifications contain the following information:		RCW 17.21.415 (4)
	Heading states: "Notice: Pesticide Application"?	Exact verbiage is required.	RCW 17.21.415 (4)
	Product name of the pesticide to be applied?		(RCW 17.21.415 (4)(a)
	Intended date and time of application?		RCW 17.21.415 (4)(b)
	Location to which the pesticide is to be applied?		RCW 17.21.415 (4)(c)
	Pest to be controlled?		RCW 17.21.415 (4)(d)
	Name and phone number of a contact person at the school?	A person's name, not job title, is required.	RCW 17.21.415 (4)(e)

8.	School facility application is made within 48 hours following the intended date and time stated in the notification?	Once notification is provided, an application can be made anytime up to 48 hours after the stated time on the notification.	RCW 17.21.415 (5)
9.	Notification process is repeated if application not made within 48 hours?	After 48 hours past the stated time, notification must be provided again.	RCW 17.21.415 (5)
10.	School, at the time of application, posts notification signs for all pesticide applications made to school facilities (except grounds) at the location of the application?	Examples include applications for ants (inside or outside), applications in the greenhouse, or emergency applications for wasps made to playground equipment. The school is responsible for posting the sign even when a commercial applicator applies the pesticide.	RCW 17.21.415 (6)
11.	All facility posting signs meet the following standards:		RCW 17.21.415 (6)(b)
	Signs must be a minimum of 8 ½ x 11 inches.		RCW 17.21.415 (6)(b)
	Heading states: "Notice: Pesticide Application"?	Exact verbiage is required.	RCW 17.21.415 (6)(b)
	Product name of the pesticide applied?		RCW 17.21.415 (6)(b)(i)
	Date and time of application?		RCW 17.21.415 (6)(b)(ii)
	Location where applied?		RCW 17.21.415 (6)(b)(iii)
	Pest that was controlled?		RCW 17.21.415 (6)(b)(iv)
	Name and phone number of a contact person at the school?	A person's name, not job title, is the acceptable information.	RCW 17.21.415 (6)(b)(v)
12.	Notification signs for applications made to school grounds meet the following standards?	A school is not required to post a sign for landscape (grounds) applications made by a commercial applicator [RCW 17.21.410(1)(d)].	RCW 17.21.415 (6)(a)
13.	Landscape posting signs meet the following standards:		RCW 17.21.415 (6)(a)
	Minimum of 4 x 5 inches?		RCW 17.21.415 (6)(a)
	Headline includes the words: "THIS LANDSCAPE HAS BEEN RECENTLY SPRAYED OR TREATED WITH PESTICIDES BY YOUR SCHOOL"?	Exact verbiage is required.	RCW 17.21.415 (6)(a)
	Footer contains: "FOR MORE INFORMATION PLEASE CALL"?	Exact verbiage is required.	RCW 17.21.415 (6)(a)
	Footer provides: Name & telephone number of contact person at school?	A person's name, not job title, is required.	RCW 17.21.415 (6)(a)
14.	Are the posting signs printed in colors that contrast with the background?		RCW 17.21.415 (6)(c)
15.	Notification signs remain in place for at least 24 hours from the time the application is completed?	School is not liable for removal by unauthorized persons.	RCW 17.21.415 (6)(d)
16.	Notification sign remains in place consistent with the restricted entry interval (REI) time?	As required by the label if the REI is greater than 24 hours?	RCW 17.21.415 (6)(d)
17.	Is notification provided after an emergency application?	Notification must be provided as soon as possible after the application. Emergencies are any pest that poses an immediate threat to human health, such as black widow spiders, stinging ants, or wasps. Lice, sugar ants, and poisonous plants are not considered to be an emergency.	RCW 17.21.415 (9)
18.	Records of pesticide applications to school facilities are readily accessible to interested persons?		RCW 17.21.415 (10)

19.	Pesticide application records comply with Washington state laws and rules?	Records must include all required information. Records must be completed on the day of application and kept for seven years.	RCW 17.21.100 (1) RCW 17.21.150 (6) RCW 17.21.415 (10) WAC 16-228-1320 (1) (2)
20.	An annual summary is available that includes all pesticides applied to school facilities?	An annual summary must include all applications in the school district for which there are records, including applications made in school greenhouses and applications made by commercial applicators to school facilities and grounds. The summary should be by product and include product name, quantity used, active ingredient, and general locations where they were applied.	RCW 17.21.415 (10)

PESTICIDE STORAGE & WASTE AND CONTAINER DISPOSAL

21.	Pesticides are stored, or disposed of without endangering humans and their environment or endangering food, feed, or any other product that may be stored, with such pesticides?	Examples of endangerment include storing pesticides with highly flammable liquids, lack of secure storage (such as disinfectants stored in an unlocked custodian closet), storage over or adjacent to food or feed, or excessively contaminated containers.	WAC 16-228-1200 (1) (7) WAC 16-228-1220 (2)
22.	Storage area and containers are stored with good housekeeping?	Avoid cluttered storage areas and containers with excessively contaminated exteriors.	WAC 16-228-1220 (6)(a)
23.	Secure storage for "danger/poison" pesticides?	Proper storage includes: closed vehicle, closed trailer, building or room or fenced area with a fence at least 6 feet high, foot locker or other container which can be locked, unattended trucks or trailers which have solid sideracks and secured tailgate at least 6 ft above ground, ramp or platform level, bulk storage containers 50 gal and larger with tight screw-type bungs and/or secured or locked valves.	RCW 15.58.150 (2) RCW 17.21.150 (4) (5) WAC 16-228-1200 (1) WAC 16-228-1500 (1) WAC 16-228-1220 (6)(d)
24.	Proper signage for pesticides and their containers labeled with "danger/poison" signal words?	Signs need the skull and crossbones symbol and the words: "Danger/Poison (or Pesticide or Chemical) Storage Area/Keep Out" (legible at 30 ft); post signs on approved enclosures, when such enclosures are unattended, at each entrance or exit from a storage area and on each exterior wall, so that a sign is visible from any direction; if the pesticide storage area is contained in a larger, multipurpose structure, signs shall be clearly visible on each exterior wall of the structure within 30 ft of the pesticide storage area and from the main entrance to the larger structure (except if the main entrance has a sign that is visible from the entrance which clearly identifies the possibility that pesticides may be stored on the premises).	WAC 16-228-1220 (7) (a) (b)
25.	Secure storage for non "danger/poison" pesticides?	Non "danger/poison" pesticides must be stored in secure storage out of the reach of children in one of the enclosures mentioned in #23 above (metal containers, 28 gallons and larger, with tight screw-type bungs and/or secured or locked valves are considered secured storage).	RCW 15.58.150 (2) RCW 17.21.150 (4) (5) WAC 16-228-1200 (1) WAC 16-228-1500 (1) WAC 16-228-1220 (6)(e)

RODENT CONTROL

26.	If you manage rodents, who does the pest control?	School employees, a commercial applicator, or both?	
27.	If you have rodent problems, where are they?	Structures, landscapes, or both?	
28.	What rodent control methods are used?	Traps, rodenticides, other?	
29.	Are rodenticides used in and around structures only under the following conditions?	The use of rodent control baits registered for home and garden use only is exempt from this section; however, pesticides labeled for home and garden use only cannot be used at school.	WAC 16-228-1380
	Are baits placed such that unattended or unauthorized access is prevented?	Baits must not be readily accessible to children, pets and nontarget wildlife; when properly secured, a locked and/or sealed tamper-resistant bait box may be used in accessible locations.	WAC 16-228-1380 (1)

	Are locked bait boxes used for all outdoor, aboveground locations?	Locked bait boxes are required for all outdoor, aboveground bait placements.	WAC 16-228-1380 (2)
	Is baits placed without causing an endangerment?	Bait shall not be placed in a manner that can contaminate, or be easily translocated to food, feed, drugs, or other consumer commodities. Spilled bait must be cleaned up immediately.	WAC 16-228-1380 (3)
	Is loose bait used appropriately?	Loose bait, whether contained in a bait box or not, shall not be placed above floor levels, including but not limited to suspended ceilings, shelves, ledges, cupboards and counters. Except that, loose bait may be placed on the floor of an attic, including unfinished walking surfaces, or bottom surfaces in conformance with all other requirements of this section.	WAC 16-228-1380 (4)
	Are bait boxes and containers constructed according to rule?	They must be of sturdy construction, composed of durable, nonabsorbent, corrosion resistant material and designed to prevent overturning. All bait containers holding liquid bait shall be liquid impervious and shall be properly secured.	WAC 16-228-1380 (5)
	Do the labels of bait boxes and containers have the required information?	Labels must have letters on contrasting background and be maintained with the following information clearly legible on the outside of the bait box or container: (a) the name, physical address, and telephone number of the company and/or certified applicator; (b) the name, Environmental Protection Agency (EPA) registration number, and active ingredient(s) of the rodent control pesticide product.	WAC 16-228-1380 (6)
	Are detection baits without pesticides used as required?	When detection baits without pesticides are placed in bait containers, the container must clearly identify that the contents are not a pesticide.	WAC 16-228-1380 (7)
	Are rodenticide baits handled safely?	Bait, when in use to fill bait containers shall be handled with caution according to the label, shall not be left unattended where children or nontarget animals might be exposed to the contents and be in a container that bears an EPA registered label.	WAC 16-228-1380 (8)
	Is bait disposed of properly?	Upon completion of a baiting operation, all bait, if it may become readily accessible to the public, shall be recovered and disposed of according to the product label.	RCW 15.58.150 (2) RCW 17.21.150 (4) (5) WAC 16-228-1200 (1) WAC 16-228-1380 (9) WAC 16-228-1500 (1)
	Are rodenticide tracking powders used safely?	Tracking powders shall not be used in any manner that will expose people, nontarget animals, food, feed, drugs, or other consumer commodities to the powder. The use of rodenticide tracking powders is prohibited in or on residential structures, except by written permission of the WSDA [see WAC 16-228-1380(10)].	WAC 16-228-1380 (10)
30.	Waste pesticides are properly disposed of at approved disposal sites?	A waste pesticide is any pesticide formulation which cannot be used according to label directions in Washington state because of cancellation or suspension of its federal or state registration, or deterioration of the product or its label, and any pesticide formulation whose active ingredients are not clearly identifiable because of label deterioration or because the pesticide is not stored in its original container.	RCW 15.58.150 (2) RCW 17.21.150 (4) (5) WAC 16-228-1010 (39) WAC 16-228-1200 (1) WAC 16-228-1500 (1)
31.	Empty pesticide containers are disposed of properly?	Empty pesticide containers must be adequately decontaminated and disposed of at approved disposal sites according to the label and state requirements.	RCW 15.58.150 (2) RCW 17.21.150 (4) (5) WAC 16-228-1200 (1) WAC 16-228-1500 (1)
32.	Rinsate disposed of properly?	Dispose of rinsate by putting it in the sprayer and applying it to a site allowed by the label.	WAC 16-228-1200 (1) WAC 16-228-1220 (2)

APPLICATION EQUIPMENT

33.	Does the powered apparatus have the required sign?	The powered apparatus must have a sign with the school district's name and telephone number. The letters must be at least 2 inches in height and be in a color that contrasts with the background. If right-of-way applications are made, the sign shall include the words: "VEGETATION MANAGEMENT APPLICATION."	RCW 17.21.400 (1) WAC 16-228-1550 (1) (2) (3) (4)
34.	Are sprayers calibrated?	Calibration means a determination of how much mix or carrier is delivered per unit of area (e.g. gallons per acre or ounces per 1000 ft ²). The pesticide label may require that sprayers be calibrated before application.	RCW 15.58.150 (2) RCW 17.21.150 (4) (5) WAC 16-228-1200 (1) WAC 16-228-1320 (7) WAC 16-228-1500 (1)
35.	What is the condition of the mix/load site?	Mix/load sites must not allow for contamination of water supplies or waterways or cause endangerment to humans, desirable plants and animals, or wildlife.	WAC 16-228-1220 (2) (3)
36.	Are spill kits available?	No RCW or WAC requires possession of a spill kit; however, safe pesticide handling dictates that spill kits are available wherever pesticides are handled (stored, transported, mixed, and loaded). Failure to have a spill kit available that could prevent human or environmental harm may constitute endangerment.	WAC 16-228-1220 (2) (3)
37.	Personal Protective Equipment (PPE) available?	Provide the proper safety equipment, as specified on the label, in good working order for the pesticides being used or stored. PPE may be required for herbicides, insecticides, and disinfectants. Pesticides used in a greenhouse may also require PPE.	RCW 15.58.150 (2) RCW 17.21.150 (4) (5) WAC 16-228-1200 (1) WAC 16-228-1320 (9) WAC 16-228-1500 (1)
38.	Power apparatus is properly maintained?	Power apparatus must be safe, clean, in good repair (no cracked hoses; properly functioning pressure gauge), and capable of maintaining a uniform mixture. Labels require that spray equipment be properly maintained.	RCW 15.58.150 (2) RCW 17.21.150 (4) (5) WAC 16-228-1200 (1) WAC 16-228-1320 (7) WAC 16-228-1500 (1)
39.	Are pesticide Material Safety Data Sheets (MSDS) available?	Certified applicators must carry (i.e. be available in the office or vehicle) the MSDS for each of the pesticides applied.	RCW 17.21.400 (1)
