Pesticide Management Division: Registration Services Program

2008 Edition

## WSDA Registration Section

- Joy Harkness . . . . 360/902-2030  
Help Desk - Pesticides
- Jeremie Leverich . 360/902-2025  
Help Desk - Fertilizers
- Ted Maxwell . . . . 360/902-2026  
Program Manager
- Mike Norman . . . 360/902-1851  
Section Manager
- Angela Owen . . . . 360/902-2027  
Office Support Supervisor
- Shannon Lumsden 360/902-2032  
Home & Garden/Antimicrobial
- Steve Foss . . . . . 360/902-2049  
Biopesticide/E-Commerce
- Wendy Sue Wheeler . . 360/902-  
Aquatic Issues 1972
- Erik Johansen . . . . 360/902-2078  
Section 18, SLN, Spray Adjuvants
- Lynn Sheridan . . . . 360/902-2031  
Fertilizer and Pet Foods

## URGENT: To Registrants of Pesticides Used In Fruit Packinghouses

An important Washington State Department of Ecology "Notice to Registrants" is available at <http://www.ecy.wa.gov/biblio/0710086.html> to inform registrants of new or reformulated chemical products to be used in fruit packing houses of the unique requirements of the Washington State Department of Ecology's Fresh Fruit Packing General Wastewater Permit. The permit requirements are available at: [http://www.ecy.wa.gov/programs/wq/permits/permit\\_pdfs/fruit\\_packers/index.html](http://www.ecy.wa.gov/programs/wq/permits/permit_pdfs/fruit_packers/index.html).

### Tips

- Supplemental Distributors: A copy of the EPA approved CSF for the primary registrant must be on file with WSDA and a Letter of Authorization to cite the CSF. If a CSF is already on file, the Supplemental Distributor does not need to send another one to WSDA.
- Master Labels are not required to be submitted unless they are specifically requested.
- Submit 2 copies of the final printed label (including supplemental labels) for any new or revised label. For label booklets, also submit 2 copies of the label text on 8 1/2 x 11 paper. WSDA does not require submission of additional graphics (e.g. DOT placards).
- WSDA must receive a written request from the registrant to withdraw or cancel an SLN registration. WSDA will notify EPA of the change in the SLN registration status. Since cancellation of an SLN registration may have an impact on grower/user groups, WSDA requests a brief explanation of the reason(s) for the cancellation.

Washington's 2006 agricultural production value: \$6.87 billion. WA Ag Stats Service

## Agricultural Container Recycling Council

Go to the ACRC  
website at:

<http://www.acrecycle.org>

for the most current information including the contractor nearest you.

Thank you !!

## What's New?

[WAC 16-228-1231](#) was changed to allow the sale of one gallon or less low volatile esters in Eastern Washington to licensed pesticide applicators. Formerly, licensed applicators could only buy large quantities but not small amounts. Since the applicator is licensed for use, forcing them to buy larger quantities than may be needed leads to storage and potential waste problems. This change became effective on 6/9/07.

The clarification of the definition for Home & Garden use pesticides found in [WAC 16-228-1410](#) of the General Pesticide Rules became effective on 6/9/07.
