Notes

¹ A repeat treatment. Twenty-one of the 85 treatments have been repeat treatments.

² A treatment against the Asian gypsy moth. Nine of the 85 treatments have been against the Asian moth, 71 treatments have been against the European moth.

³ A non-pesticide treatment. In 5 of the 85 treatments, pesticides were not involved.

⁴ This treatment was a combined pesticide/mass trapping treatment.

⁵ WSDA no longer uses this pesticide for the eradication of gypsy moth.
