WASHINGTON’S
Centennial Farms

25 years later...

Celebrating the important role of agriculture in the history and development of Washington State

A project of the Washington State Department of Agriculture to commemorate Washington’s 125th Anniversary of Statehood
Reconnecting with Washington’s Centennial Farms

Happy 125th Birthday Washington!

Washington State celebrated its 125th anniversary of statehood on November 11, 2014. Leading up to the date, the Washington State Historical Society and Secretary of State encouraged state agencies to join in the commemoration, with a focus on the last 25 years.

In response, the Washington State Department of Agriculture (WSDA) undertook an effort to reconnect with the farms that participated in its Centennial Farm recognition program in 1989. These farms – a total of 412 in number, from all across the state – had been in the same family for 100 years or more at the time of the state’s Centennial.

“This has been a wonderful opportunity to highlight the continuing importance of agriculture to our state and to reconnect with farm families who have been part of our state’s history for more than 125 years.”

– DEREK SANDISON, DIRECTOR OF AGRICULTURE

The goal of the 2014 project was to find out, 25 years later, if these farms were still in the same family and to capture a few details about each farm’s current ownership, size and operation. A total of 286 farms chose to participate, an impressive 69 percent response rate, with 253 reporting that the farm was still owned by the same family.

This publication includes a 20-page overview that summarizes the results of this project and highlights some of the changes in our state’s agricultural industry over the last 25 years. The overview is complemented by eight chapters, organized by region, that present specific information about the individual farms that participated.

Celebrating Agriculture in 1989

Agriculture has been a vital part of Washington’s economy and its character since before statehood. The state’s Centennial Celebration was a time of engagement and festivities across the state, with an overwhelming response to the Department of Agriculture’s Centennial Farm program. WSDA issued certificates and cooperated in local events to recognize farms that had been in the same family 100 years or more. As it reviewed applications and the records documenting the farms’ establishment, WSDA realized it had in its hands a wealth of information that formed a larger story – one that needed to be shared and preserved.
Centennial Farm families were among the state’s earliest settlers. They put their roots down first in western Washington, then in the Walla Walla country. They followed settlement east to the productive lands of the Palouse, before turning back westward as they followed the construction of the railroad into central Washington. And, Centennial Farm families did much more than farm. They helped establish communities, churches and schools, and played an active role in shaping Washington.

The importance of agriculture and farm families to the settlement and development of the state was presented in the book, “Washington’s Centennial Farms: Yesterday and Today,” published in November 1989. The book features profiles of the Centennial Farms, providing the individual stories of the farm founders and a snapshot of the farm operation in 1889 and in 1989. The 2014 project created an opportunity to check in with these longtime family farms, take another snapshot in time, and see the state’s agricultural industry from a variety of perspectives.

**Quick Facts**

- Centennial Farms are in 36 of the state’s 39 counties.
- The oldest Centennial Farms are in western Washington in Island, Lewis and Pierce counties, tracing their history back to the early 1850s, when Washington was still part of the Oregon Territory.
- Half of the Centennial Farms are in four eastern counties: Whitman, Walla Walla, Spokane and Lincoln.

The importance of agriculture and farm families to the settlement and development of the state was presented in the book, “Washington’s Centennial Farms: Yesterday and Today,” published in November 1989. The book features profiles of the Centennial Farms, providing the individual stories of the farm founders and a snapshot of the farm operation in 1889 and in 1989. The 2014 project created an opportunity to check in with these longtime family farms,

---

### In 1889
Most Washington farms were self-sufficient operations with a garden, an orchard, grain crops, chickens, a milk cow, hogs and beef cattle, and horses to do the work. They produced food for the family, feed for livestock, and agricultural products to sell for income to buy family and farm supplies.

### In 1989
Washington’s farms were specialized – ranging from 40-acre orchards to 200-acre dairy farms to wheat ranches of more than 5,000 acres.

### In 2014
Washington’s farms continue to be specialized but more diversified as they respond to changing markets, consumer preferences, and a state population that has grown from 4.7 million to 7.0 million in the last 25 years.

---

“Our goal is to instill love and pride of ownership for this land in our children, to honor our ancestors who worked diligently to keep and improve this ranch. They lived and died working this land. Their lives are woven into every field.”

**-- JULIE PITTMANN, THE PAINTER FARM, SPOKANE COUNTY**
WSDA received responses from 286 of Washington's 412 Centennial Farms. Of those responding, 253 (88%) are still owned by the same family as in 1989.
“So, is the farm still in your family?” That’s the question we posed to 412 families who participated in the 1989 Centennial Farms project. Almost 300 responded, and we learned that a remarkable 88 percent of these farms are still in the same family, and have been now for at least 125 years and, in some cases, more than 150 years.

These families also told us who currently owns and operates the farm, the farm’s size, and what crops or livestock were produced in 2014. Comparing the responses to the information provided in 1989 provides some insight into recent changes in this group of longtime farming operations. Not surprisingly, we noted some differences between eastern and western Washington farms.

For example, the percentage of farms still owned by the same family gets higher the further east you go. In western Washington, 82 percent of the farms are still in the same family; the number rises to 88 percent in the center regions of the state, and reaches 93 percent in the regions bordering Idaho.

Who owns the farm today?

Longevity and perseverance on the farm are in these families’ genes. Case in point: for almost half the farms, the owners in 2014 are the same as in 1989, more than a third are owned by the next generation, and the rest are jointly owned by a mix of the two.

Who’s operating the farm?

Who runs the farm operation also tells a story. Most of the current farm owners were listed as the operators of the farm, sometimes in partnership with a child or grandchild. Almost a quarter of the farms are operated by someone outside the family, somewhat more so in eastern than western Washington.

Changes in Farm Size

While the owners and operators of Centennial Farms have stayed relatively stable over the last 25 years, the size and activities of the farms have not. Roughly a third of the farms report farming more acres in 2014, an equal number farm less acreage, and the rest are about the same. Western Washington farms were more likely to report operating less acreage today. On average, western Washington Centennial Farms operated 228 acres in 2014, about 10 percent less than they did in 1989. The average number of acres operated by eastern Washington Centennial Farms increased 30 percent from 1989 and, at 2,416 acres, was more than ten times the average farm size west of the Cascades.

Note: There were no Centennial Farms in Ferry, Pend Oreille or Skamania counties.
Crops and Livestock Produced

For most Centennial Farms, there was no major change in the primary crops and livestock produced in 2014 compared to 1989. While production practices may have changed, eastern Washington dryland farmers still grow wheat, while cattle, hay and timber still predominate in western Washington. There was change, however, in the Puget Sound counties, with several farms selling their dairy herds and shifting to crops, particularly fresh potatoes. Also, with the departure of area vegetable processors, green peas and cucumbers disappeared from the list of crops produced by Centennial Farms in those counties.

What about the farms that were sold?

The Centennial Farms that left family ownership, by and large, are still operating farms. In several cases, the farm is now owned by a neighbor or by the family leasing the land for many years.

The few that are no longer in agriculture include land that is now part of a wildlife refuge in Skagit County, home to a non-profit providing early childhood education in Yakima, and owned by a gravel business in Lewis County.

Overall, 12 percent of the responding Centennial Farms left family ownership in the last 25 years, with the rate almost twice as high in western Washington as in eastern Washington. Often, the farm was sold because no one in the family was able or interested in continuing to operate it, with death, illness or old age prompting the ultimate sale.

“My father, Erik, is looking down from heaven with a smile, that the game and wildlife now have a home.”

-- Kathryn Eide Glick, The Eide Farm, Snohomish County

What’s the Original Parcel?

In their responses, Centennial Farms told us how many acres of the “original parcel” they still retained. The original parcel is the parcel of land that the family hangs its Centennial Farm status on – its longest continuously owned piece of land.

Seventy percent of Washington’s Centennial Farms acquired their original parcel from the federal government under one or more of the public land acts in effect during Washington’s territorial period. Others purchased land from other settlers or the Northern Pacific Railroad, which received land from the federal government to cover construction costs. Most commonly, Centennial Farms obtained their first land under the Homestead Act, which granted 160 acres to a settler if he or she would improve and live on the land continuously for five years.

In the last 25 years, about 10 percent of the participating Centennial Farms that are still in the same family sold a portion of their original parcel. The average acres retained in 2014 was 85 acres in western Washington and 152 acres in eastern Washington – with many eastern Washington Centennial Farms still owning their entire original 160-acre parcel.
Washington Agriculture: 1989 and Today

Washington’s Centennial Farms illustrate many of the significant changes that have occurred in agriculture since 1989. The following pages highlight several of these changes, and feature Centennial Farms that shared how their operations have changed since 1989.

Trends across the industry

Going Organic: In the last 25 years, organic has become mainstream. When Washington fielded one of the first state organic certification programs in 1988, there were 68 organic farms with 2,000 acres in the state. In 2013, WSDA certified 748 producers with almost 87,000 acres, as well as 350 organic handlers and processors. Organic food sales in the U.S. have more than doubled in the last 10 years, reaching an estimated $35 billion in 2014.

Washington is the leading U.S. producer of organic apples, pears, cherries, sweet corn, green peas and more, with most of the organic acreage in western and central Washington. Two percent of Washington’s Centennial Farms are WSDA-certified, a proportion on par with the state as a whole, and are producing organic milk, beef, fruit, berries, hay and other crops.

Buy Local: In the last 25 years, consumers increasingly have embraced local food and farms, flocking to Washington’s more than 150 farmers markets, which offer products from an estimated 1,200 farmers. Several Centennial Farms have turned to direct marketing to take advantage of the ‘buy local’ trend.

The Hayton Farm in Mount Vernon sells its berries to Seattle-area restaurants and farmers markets. Mission Farms near Walla Walla markets its natural free-range eggs, heritage turkeys and other meat and poultry products locally. Abbey Farm near Waitsburg produces dry mixes using its whole grain wheat berries and sells them at gift shows and through the mail. Several Centennial Farms sell their beef through local outlets and direct from the farm.
Conservation and Sustainability: Over the last 25 years, natural resource conservation and stewardship have been increasingly emphasized throughout agriculture. More growers are using reduced tillage, direct seeding and other practices that conserve or improve soil, water and wildlife habitat. Since its start in 1986, the federal Conservation Reserve Program (CRP) has taken nearly 20 percent of Washington’s most erodible and environmentally sensitive cropland out of production through long-term contracts. In 2014, Washington farmers, including many Centennial Farms, had close to 1.4 million acres – mostly planted to native and nonnative grasses – under CRP.

Local and state conservation programs have also tapped into the value of Centennial Farms. Some of the original Freund Farm in Island County is now a restored wetland on Oak Harbor’s waterfront that features the Freund Marsh Trail. The Ovenell Farm recently sold 15 acres to the City of Stanwood to be preserved as open space with recreational access to the Stillaguamish River. Former homestead land of the Eschbach family is transitioning from a park to a natural area in Yakima County and the Gilkerson/Davis Farm east of Walla Walla leases land to the state for wildlife habitat.

Changes in Top Ag Commodities

Dairy: Significant changes have occurred in Washington’s dairy industry in the last 25 years as small dairies disappeared in western Washington and large dairies found a new home in irrigated areas of eastern Washington. In 1987, the U.S. Ag Census tallied 1,606 commercial dairy farms and a total of 221,000 milk cows in the state. By 2012, the number of commercial dairies had declined to 427, while herd size increased 20 percent to 267,000 milk cows.

Economics has been the primary driver for this nationwide shift to larger dairies, while urban pressures have pushed much of Washington’s dairy industry across the Cascades.

There were 17 Centennial Farms operating dairies in 1989 with all but one in the “dairy counties” around Puget Sound. In 2014, only four of these farms are still in the dairy business. These farms have expanded and adopted new technology, with robotic milking machines being installed, automated feeding and watering systems the standard, and manure management more sophisticated.
**Beef:** Like the dairy industry, the state’s **beef industry** has seen a decline in number of operations, from an estimated 16,000 in 1989 to just over 9,100 in 2012. That’s been accompanied by an even greater decline in the state’s beef cow herd size. Since peak inventory in the early 1980s, cow-calf herds have declined nationally by 26 percent, and in Washington by more than half, to about 209,000 cows in 2014. Still, one in four farms in the state have beef cows and, as in 1989, about 65 percent of these operations have less than ten cows.

Among Centennial Farms, fewer reported raising beef cattle in 2014 than in 1989 but, across the state, raising cattle remained one of the most common aspects of Centennial Farm operations. Several farms commented on the heightened importance of sustainable practices and land stewardship, especially related to water quality and manure management.

**Apples:** In the last 25 years, the choice of variety available from Washington’s **apple growers** has expanded. In 1989, 75 percent of Washington apple acreage was Red Delicious, 15 percent Golden Delicious, 5 percent Granny Smith and 5 percent all others. In 2014, Washington promotes a range of more than nine varieties. Red Delicious still make up 30 percent of the state’s apples and almost half of the state’s apple exports.

There are few orchardists among the ranks of Centennial Farms. Most of the fruit industry’s development occurred after statehood, when irrigation waters from the Yakima and Columbia Basin projects changed areas with less than 10 inches of rainfall a year to some of the most productive agricultural land in the country. Today this land produces not just apples and other tree fruits, but many other high-value crops such as potatoes, onions, hops, wine grapes, sweet corn and mint.

---

Rowe Farms, Yakima County

Irrigated agriculture and the fruit industry were in their infancy in 1889 when Linnie Rowe’s son persuaded her to come to the Yakima Valley and file a claim on 200 acres of sagebrush above the Naches River. Her son soon died but Linnie carried on and the rest of the family came west. By 1904, Rowe Farms was a mixed crop and livestock farm with 14 acres in orchards.

Today, brothers Adam and Morgan Rowe operate 530 acres of apples, pears, and cherries. Over the last 25 years, Rowe Farms has changed in ways that typify the fruit industry.

In 1988, 80% of their apple trees were Red and Golden Delicious, now it's just 30%, with new varieties like Honeycrisp and Pink Lady in the orchard. And about 10% of their apples and cherries are certified organic, an option that didn't exist 25 years ago.
Wheat: To the casual observer, changes in wheat farming over the last 25 years may be less evident than for other commodities in Washington.

Wheat is still king in terms of crop acreage in Washington, and still mostly grown on vast expanses of land in a region that averages less than 17 inches of rainfall a year. In 2014, wheat was harvested from more than 2 million acres of the state’s cropland, with Whitman, Lincoln, Adams and Walla Walla, as usual, the top wheat-producing counties.

Like 25 years ago, most of the crop is soft white winter wheat, with 85 to 90 percent destined for overseas markets where it is milled to make flour for flat breads, cakes, pastries, crackers and more.

Wheat has been planted every year on most eastern Washington Centennial Farms for more than 125 years. And while many Centennial Farms reported no change or “not much” in the last 25 years, others commented on changes in tillage practices, rotation crops, equipment, technology, and farm size.

How has the farm changed over the last 25 years?

Everything’s bigger. We use wheel tractors instead of crawlers. There is no more livestock and not near as much tillage.

BILL BLESSINGER,
The Blessinger Farm, Columbia County

We have improved the variety of crops grown and have made the transition to direct seed with no loss in profitability.

ROGER COX,
Grove Ranch, Whitman County

Like other farm families, we’ve made big gains in productivity and stewardship, producing several 80-plus bushel crops in a 13-inch rainfall zone where 45 bushels was once an outstanding yield, while reducing tillage and making major gains in preservation of topsoil.

ALEX MCGREGOR,
McGregor Land & Livestock Ranch, Whitman County

The size of operation has doubled, direct seeding has replaced conventional farming, GPS guidance systems are used extensively, electronic moisture instruments monitor grain from the combine.

KARL FELGENHAUER,
The Elden Felgenhauer Farms, Spokane County

We have changed the farming system twice, and now farm no-till direct seed.

JERRY SHEFFELS,
The Sheffels Farm, Lincoln County

Wheat harvest on Mielke Bros. Inc. near Davenport
The Tompkins Farm in Walla Walla County wrote that its 2,440-acre farm is too small to operate alone and it’s now part of a larger farm operation. The Hill Ranch in Whitman County said it sold the farm because the ag economy was “in the pits and we couldn’t get big.”

Several farms reported using GPS technology to fine-tune planting, fertilizer and pesticide application, and harvest. Many more pointed out they’ve adopted new farming practices to improve soil health, reduce erosion, and manage pests.

Conventional tillage, involving several tractor trips to prepare fields for planting, was standard practice in Washington in 1989. By 2004, one-third of Washington wheat acreage was minimum- or no-till, and by 2012, conservation tillage practices, including no-till, were used on more than half of the cultivated cropland acres in Washington.

The information shared by the Centennial Farm wheat farms in many ways matches the statistics that capture changes across the state’s wheat industry. In the last 25 years:

- Wheat farming operations have gotten larger. While the number of farms harvesting wheat has fallen by almost half to 2,871 in 2012, the number of acres devoted to wheat have remained relatively steady.
- The mix of rotation crops has changed. Barley production declined from an average of more than 500,000 acres in the late 1980s to an average of 145,000 acres since 2010. At the same time, garbanzo acreage increased from 4,000 acres in 1988 to a record 92,000 acres in 2013, with canola acreage also on the upswing.
- Acreage that used to produce wheat and barley has been planted to grasses under the Conservation Reserve Program. Of the more than 1.4 million acres in CRP the last ten years, the state’s wheat counties accounted for close to 95 percent of the enrolled acreage.

Wheat farmer Allen Druffel describes the shift from conventional tillage to no-till on the John Jacob and Caroline Schlee Homestead as “monumental.” For the Druffel family, the original motivation to move to less tillage was economic. “We couldn't see a sustainable way to continue farming,” says Druffel. “The soil was either blowing away or washing away. My dad wanted to keep the value of the farm, not just for my generation but for generations to come.”

Druffel says he wants to boost production by paying attention to what's under the soil surface. By giving up the plow and reducing farm machinery crossings, soil compaction is not such an issue; leaving crop residue on the ground after harvest means better retention of water, organic matter, and nutrients. Increasing diversity in crop rotation, and planting deep-rooted crops or ground cover are also improving soil health.
Value of Washington agriculture soars

The value of crops and livestock produced on Washington’s farms has almost tripled in the last 25 years – from a value of production of $3.7 billion in 1988 to a near-record $10.1 billion in 2013.

A look at Washington’s “Top 10” in 1988 and 2013 shows not only the tremendous diversity of the state’s agricultural industry but also some significant shifts in the production and value of those commodities. **Wheat** was the state’s top crop for almost 100 years and, in terms of acreage, it remains the biggest player. Over the last 25 years, however, wheat has found itself regularly in the number three spot as **apples** have taken a firm hold at the top – reaching almost $2.2 billion in value in 2013 – with **milk** consistently coming in at number two.

**Sweet cherries** have moved up in rank due in large part to an increase in acreage – from 12,800 bearing acres in 1988 to 35,000 bearing acres in 2013. **Hops** and **grapes** have moved into the Top 10, thanks to the development of the nation’s craft brewing industry and the growth of the state’s wine industry. In the last 25 years, Washington’s **wine industry** has grown from less than 70 to more than 700 wineries and its wine grape acreage has increased to 45,000 bearing acres, almost twice the acreage of grapes grown for juice, jams and jellies.

Though not in the Top 10, the last 25 years have also seen a boom in **blueberry** production, with more than a six-fold increase from 2003 to 2013 due to consumer demand. The state’s **asparagus** industry, on the other hand, is a shadow of its former self. After peaking in 1989, growers now harvest a much smaller, fresh-market crop, in the wake of processors moving operations to South America a decade ago.

Family farms, small and large

While most of the state’s 36,700 farms are small, part-time operations, Washington’s midsize and large-scale family farms account for almost all of the state’s agricultural production.

Of the state’s 14.7 million acres in farmland, 1 million are in western Washington where farm size averages 57 acres. Eastern Washington farms cover 13.7 million acres and average 701 acres.

Still tops in crops

As in 1988, Washington in 2013 was #1 in the country in the production of apples, sweet cherries, pears, hops, spearmint oil, red raspberries, and carrots and green peas for processing, and #2 in the production of potatoes. Washington produced almost 7 percent of the nation’s wheat crop in both 1988 and 2013.
Of the 412 farms that participated in the 1989 Centennial Farms project, a total of 286 responded to WSDA’s questionnaire asking if the farm was still owned by the family in 2014. Of those responding, 253 answered yes. Here is a list by county of all 412 farms, noting the year the farm was established and whether the farm is still owned by the same family, indicated by Yes, No or NR (No Response). Specific information about individual farms is found in the regional chapters. Each county name is followed by the name of the region it’s in.

### Overview of the Regional Chapters
The eight regional chapters contain the information provided by Centennial Farm families in response to the questionnaire WSDA sent them in 2014. The questionnaire asked who owns and operates the farm today, the size of the farm and how many acres of the “original parcel” are still owned, and what crops or livestock are produced. Families could also comment on farm changes over the last 25 years and whether any original buildings were still in use.

Each farm’s listing in the regional chapters notes the page where the farm’s profile appears in the 1989 book, “Washington’s Centennial Farms – Yesterday and Today” or its Addendum, available on the WSDA website at: http://agr.wa.gov. A farm’s 2014 listing is best understood and appreciated when read with its 1989 profile, where you’ll find information on the farm’s establishment and its operation at the time of the state’s Centennial.

Bi-Zi Farms, Clark County

Taking advantage of the natural tension between agriculture and urban growth, Bill and Peggy Zimmerman opened a small farm store in 2000 to direct market their vegetables and berries. The 40 acres that Bill's ancestor purchased in 1872 to raise hay and cattle and provide for his family is just minutes northeast of Vancouver. In 1989, Bi-Zi Farms grew certified clover seed and oats, cleaning and delivering it to Portland and Seattle horse race tracks. Today, shoppers and families come to the farm for fresh produce and an agri-tourism experience.

Sharing the peace and beauty of the farm

For many families, the farm goes well beyond being a business -- it is a source of physical and spiritual sustenance, and a peaceful, beautiful place to live. Some Centennial Farms have capitalized on those qualities. At Woodside Farm Estate on Orcas Island, a picnic shed built for a granddaughter's wedding is now rented out for other weddings and events, and a small cabin is a short-term rental property. The Jennings Farm in Skagit County rents out its display garden for events and operates a restaurant in the former granary as part of La Conner Flats Farm and Garden. The William King Farm near Sequim renovated the 1870s farmhouse and opened it as Clark's Chambers Bed & Breakfast in 2000.

Also changed in the last 25 years - Rural addresses
At the time of the state's Centennial, a typical rural address, especially in eastern Washington, included a route number and a box number -- as in Route 1, Box 129 -- with no reference to a physical location. In the early 1990s, as part of enhancing the state's 911 emergency response system, these rural addresses changed to a permanent road name and number.

The new address system made many of the 1989 addresses WSDA had for Centennial Farms unusable. A major, time-consuming aspect of the 2014 project to reconnect with the state's Centennial Farms involved finding mailing addresses and current contacts for the each of the farms. Not surprisingly, many of the road names recognize the families who first settled an area and are a bit of history in themselves.

Acknowledgements

First and foremost, thanks to the 286 families who chose to participate in this project and shared information about their families and farms. Thanks also to the many volunteers and cooperators who contributed in a variety of ways, large and small, to the success of this effort, including:

Jerri Honeyford, who suggested WSDA take on the project, recruited volunteers, and located contacts for farms in 12 counties.

Volunteers from across the state who worked to locate contacts and encourage response from farms in their counties:

- Pamela Ray (Walla Walla County)
- Jeanne Youngquist (Skagit County)
- Dave Ruark (Garfield County)
- Faye Rainwater & Jesse Smit (Columbia County)
- Paul Mann & Jennifer Fees (Spokane County)
- Dennis Roe, Ed Garretson Jr & Janet Barstow (Whitman County)
- Jerry Sheffels, Jill Schwartz & Stacey Rasmussen (Lincoln County)
- Sandra Powers (Klickitat County)
- Kristen Griffin & Sarah Steen, (Island and San Juan counties)
- Shanna Stevenson (Thurston County)
- Debi Hamilton (Chelan and Douglas counties)
- Karin Clinesmith (Adams County)
- Sheila Poe (Grant County)
- Karen Eslinger (Kittitas County)
- Bobbi Lindemulder (Snohomish County)

Sharing the Story of Agriculture All Year

The 2014 celebration of Washington’s 125 years of statehood was the occasion for Reconnecting with Washington’s Centennial Farms, with the Nov. 11 event at the state Capitol just one of several ways the story of Centennial Farms and the state’s agricultural industry was shared.

- The display created for the Washington 125 Celebration was installed at WSDA Headquarters in Olympia for all of 2015.
- A photo exhibit on the Rosler Farm was part of the San Juan County Fair’s ‘Ag Corner’ in 2014. A Columbia County Centennial Farms exhibit won a prize at the 2014 Columbia County Fair.
- Centennial Farm features were among WSDA’s most popular Facebook posts during the anniversary year and several newspapers ran stories highlighting Centennial Farm families.

Unless otherwise credited, photographs and other images were provided by Centennial Farm families, volunteers and the Washington State Department of Agriculture. Statistical data sources: USDA National Agricultural Statistics Service, Washington State Department of Agriculture and Washington State University. The primary data sources include the U.S. Census of Agriculture for 1987 and 2012, and the annual agricultural statistics for 1988 to 2014.

Written and compiled by Mary Beth Lang and Janet Waeschle
AGR Publication 101-469, December 2015

Southwest Washington and South Puget Sound

Many of Washington’s oldest Centennial Farms are in the 13 counties in the Southwest Washington and South Puget Sound region. In fact, six of the responding farms in this region have been in the same family for more than 150 years, including all three Thurston County farms.

Over the past 25 years, Washington agriculture has seen more direct marketing, the advent and growth of organic farming, and increased emphasis on “buy local” and sustainable agriculture. These trends stand out among this region’s Centennial Farms.

Shrinking farm sizes

The number and size of the Centennial Farms in Southwest Washington and South Puget Sound has decreased, more so than in other parts of the state. More than half of the responding farms reported they farmed less land than they did in 1989 or that the farm had left family ownership.

Generally, it’s the Centennial Farms in the urban counties that are smaller operations today. For example, the Nix Farm in Puyallup, which produced corn, pumpkins, strawberries and Christmas trees on 22 acres in 1989, now leases its last 10 acres of farmland to a blackberry grower who operates a roadside stand on the property.

Bi-Zi Farms, just minutes northeast of Vancouver, operated 700 acres in 1989; today it’s a 115-acre operation with an on-farm store, where Bill and Peggy Zimmerman direct market vegetables and berries and offer agri-tourism experiences.

Response to Reconnecting with Washington’s Centennial Farms

Of the 53 Centennial Farms in this region, 41 responded to the 2014 questionnaire. Of those, 33 continue to be owned by a descendant of the 1889 landowner.

In the more rural counties, the farm size of Centennial Farms has stayed the same or slightly expanded. For example, the seven farms still in the same families in Lewis County are the same size or larger today than they were in 1989, ranging from 112 to 200 acres.

Expanding local markets

Several farms reported they are leveraging their location and taking advantage of the “Buy Local” trend by offering direct sales at the farm or through farmers markets and local shops. And it’s not just berries and vegetables. The Colvin and Spirlock/Nelson ranches in
Thurston County direct market their natural, grass-fed beef and promote the sustainability practices of their 550- and 1,000-acre operations.

Organic practices have been embraced by several farms. The Woodcock Farm in Clallam County, which produced oats and barley in 1989, is now leased to a young farmer who produces organic vegetables. Jim and Janie Austin, owners of the Austin Farm in Grays Harbor County, switched their dairy to organic production in 2006 and with their son, Ron, also raise organic hay, silage and beef cattle.

Centennial Farms by the numbers: 1989 vs 2014

- Of the 33 farms still in the family, 18 are owned by the same owners as in 1989. Ten have been passed on to a child or grandchild. Three are owned by the 1989 owner and the next generation, and two are now owned by cousins or a nephew.
- Twenty-four farms list the current owner as the day-to-day operator of the farm, two list the current owner and a child, three list a child or grandchild as the operator, and four are leased out.
- The general trend in farm size is smaller, with the average size shrinking from 270 acres in 1989 to 195 acres in 2014. Farm size in 1989 ranged from 20 to 807 acres, and in 2014, from 12 to 600 acres.
- Acres operated by the Centennial Farms in King, Pierce and Clark counties average 45 acres while the farms in Thurston, Lewis and Grays Harbor average 295 acres.
- As in 1989, the top crops in 2014 on these farms are beef cattle, hay and timber. The number of commercial dairies dropped from six in 1989 to one in 2014.
- Of the eight farms no longer owned by Centennial Farm families, four are still farmed, one is a gravel mining operation, and three did not provide information.

Several farms in this region are featured in the Overview, including Bi-Zi Farms, The Austin Farm and The Spirlock/Nelson Farm.

Colton, Nicole and Tony Carr of SunnyCrest Farm in Pierce County direct market their beef, eggs and hay, and are committed to practices to improve and sustain land health. The Carrs have added more livestock, they rotate crops and livestock, and “try new things to see what works best.”

Nicole Niemann-Carr and her family live on the farm, as do her grandmother and aunt. Her dad lives across the road.
CLALLAM COUNTY

The James Clark Farm est. 1887

Current Owner: Elliot K. Clark, Jr.
Relationship to 1989 Owner: one of the owners
Current Operator: Elliot K. Clark, Jr.

Changes in the Past 25 Years: The present barn, built in 1922, was restored in 1996. In 2000, the 1870's farmhouse was renovated and opened as Clark's Chambers Bed & Breakfast along with the addition of a separate owner's quarters.

Additional Information: In 1992, the estate of Elliot King Clark was settled. Robert J. Clark became sole owner of the William King Farm and Elliot King Clark Jr. became sole owner of the James Clark Farm. Since then, Robert Clark has deeded 25 acres of the original homestead land to his two daughters and his son, Thomas, who does most of the farming now.

Contact: Robert J. Clark, 322 Clark Rd., Sequim, WA 98382

The Woodcock Farm est. 1884

Current Owner: Gwendolyn Gagnon Jones
Relationship to 1989 Owner: one of the owners
Current Operator: Noah Bresler
Relationship to Owner: friend

</table>
Changes in the Past 25 Years: I became sole owner in 2008 and I sold 75 acres of the farm to Noah Bresler in 2011. Noah also leases the remaining original 36 acres from me.

Additional Information: Noah Bresler is maintaining the land as a farm and keeping it in agriculture, connecting to Centennial days through organic farming methods. He sells through direct market and wholesale.

Contact: Noah Bresler, 2800 Woodcock Rd., Sequim, WA 98532

**CLARK COUNTY**

**The Anderson Farm** est. 1865  
This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 1999 when it was sold to John and Sandra Perrott.

Is the Land Still Farmed? Yes, the Perrotts are the first family who are not descendants of the original pioneer family to live here since 1865. We do not actively farm the land but it does yield a crop of wheat and hay for our lessee.

**Bi-Zi Farms** est. 1872  
Current Owner: Bill and Peggy Zimmerman  
Relationship to 1989 Owner: same  
Current Operator: Bill and Doug Zimmerman  
Relationship to Owner: one of the owners and son

Changes in the Past 25 Years: Changed from grain and clover seed production to row-crop vegetables and berries.

Additional Information: In 2000, we built a small on-farm store and direct market about 98% of our berries and veggies. Agri-tourism is another venture that we have added to the farm.

Contact: Bill or Peggy Zimmerman, 9504 N.E. 119th St., Vancouver, WA 98662

**The Hazen/Frasier Farm** est. 1876  
Current Owner: Dennis Frasier  
Relationship to 1989 Owner: same  
Current Operator: Dennis Frasier  
Relationship to Owner: same

Changes in the Past 25 Years: None.

Additional Information: All of the original buildings are still in use.

Correction to the 1989 Book: The family has since acquired copies of Enoch Hazen’s homestead papers documenting that the farm was established in 1876.

Contact: Dennis Frasier, 12100 N.E. Grantham Rd., Amboy, WA 98601

**The Mattson Farm** est. 1883  
Current Owner: Erik and Betty Mattson, Allan and Susan Mattson  
Relationship to 1989 Owner: surviving family members  
Current Operator: Erik O. Mattson  
Relationship to Owner: one of the owners
Changes in the Past 25 Years: In 1989, the fields were leased. The original house, built in 1883, is used daily. The original wagon barn has collapsed. The barn is still standing.

Additional Information: The farm was owned by Laine Mattson and her three sons from 1976 to 2011. The three brothers owned the farm from 2011 to 2013. The two surviving brothers are now the owners. We currently partner with neighboring Majestic Farms, which was part of the original 1889 John Erik Mattson farm. The farm is also known as “The Red Barn Farm.”

Correction to the 1989 Book: John Erik Mattson came to the United States in 1882.

Contact: Erik O. Mattson, P.O. Box 754, Camas, WA 98607

Cowlitz County

The Bebe Farm, est. 1889

Current Owner: Alden and Ann Bebe
Relationship to 1989 Owner: same
Current Operator: Alden and Ann Bebe
Relationship to Owner: same

Changes in the Past 25 Years: Besides switching to organic production eight years ago, our biggest change is milking with two DeLaval robots and all the supporting machinery.

Additional Information: Formed Austin Family Farm LLC with our son Ron. He will eventually own the farm.

Contact: James T. Austin, 320 Elma Gate Rd. E., Oakville, WA 98568

The Glenn Farm est. 1868

Current Owner: Donna Glenn Hagen and Eric Fellhauer
Relationship to 1989 Owner: daughter and grandson
Current Operator: Donna Glenn Hagen
Relationship to Owner: one of the owners

Changes in the Past 25 Years: It's larger with more diversity (hogs, haylage). Although we have some newer implements, we still have and use the implements used in 1989. We produce milk-fed weiner pigs and locker pork as well as pasture-fed beef, hay and haylage.

Contact: Donna Glenn Hagen, 354 Monte Brady Rd., Montesano, WA 98563

The Koch Farm est. 1889

This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 2014.

Is the Land Still Farmed? Yes. Karl Koch raised cattle, cut hay, and harvested timber on the land settled by his grandparents until 2000 when he moved into assisted living in Elma. A neighbor has harvested the hay and there have been several timber harvests since then. When Karl died in 2008, ownership of the farm passed to the Karl M. Koch Estate with Karl’s 11 nieces and nephews as recipients of the estate. About half of the farm was sold in 2012 and the remainder in August 2014. Both new owners intend to keep the land in timber.

Contact: Jan Ordos, 2334 Marina Ln. S.E., Lacey, WA 98503

The McDougal Farm est. 1888

This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 1997.

Is the Land Still Farmed? Yes. Carl Powers and Luann Graydon have honeybees and operate Noble Valley Farm, a 10-acre Christmas tree farm, on the 57.5 acres they purchased from Bud McDougal in October 1997. Charles McDougal died in 2004 at age 93.

Contact: Carl Powers and Luann Graydon, 25 Sickman Ford Rd., Oakville, WA 98568
**JEFFERSON COUNTY**

**The Broderson Homestead** est. 1882  
This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 1992.  
*Is the Land Still Farmed?* Yes. Bill and Dorothy Broderson were both 92 years old when they sold the farm to Michael and Laura Kitchen, who raise registered Black Angus cattle and hay.  
*Contact:* Michael Kitchen, 5944 Center Rd., Chimacum, WA 98325

**The Charles Johnson Farm** est. 1887  
*Current Owner:* Thomas Johnson, Diane Johnson, Barbara McClary, Elizabeth Nelson, Claudia Johnson, Charles Johnson  
*Relationship to 1989 Owner:* sons, daughters, cousins, second cousins  
*Current Operator:* Beth Nelson, Thomas Johnson and Charles Johnson  
*Relationship to Owner:* three of the current owners

*Changes in the Past 25 Years:* Homesteader Charles Johnson's children and their spouses have now died. Several cousins and their children now own parts of the original farm. Three new homes have been built on various parcels by these grandchildren, and the farming acreage is smaller, though two of the homes have been incorporated into timber lands. Non-family members own three parcels, one of which is still farmed, raising sheep for wool. Because the elders lived to a ripe old age, some buildings (including barns), fencing, and the fields themselves, fell into considerable disrepair. Happily, the great-grandchildren are refurbishing and rejuvenating, and the farm will continue producing great grass-fed beef.

**Additional Information:** Georgena Johnson, Erving's wife, was the last of the original sibling generation to pass on in 2014. She was chosen as one of the Pioneers of the Year for the 2010 Quilcene Parade, a special honor. We are pleased that Charles Johnson's namesake, great-grandson Charles Lee Johnson, is purchasing his grandparents’, Georgena’s and Erving's, home as I write, and plans to continue farming with his father, Thomas.  
*Contact:* Diane Johnson, 1521 Dabob Rd., Quilcene, WA 98376

**KING COUNTY**

**Lagesson Homestead** est. 1885  
*Current Owner:* David Knadle, Lois Clapper, Grant Knadle, Alice Kubisky  
*Relationship to 1989 Owner:* same  
*Current Operator:* David Knadle  
*Relationship to Owner:* one of the owners

The Hilpert Farm, est. 1858

This Centennial Farm is no longer owned by the family that owned it in 1989. The land left family ownership in 1998.

Is the Land Still Farmed? No. Hamlet Hilpert leased, and later sold, the land to Sterling Breen Crushing for a gravel pit operation.

The Francis Layton Farm, est. 1851

Current Owner: Tom & Sharon Layton
Relationship to 1989 Owner: two of the owners
Current Operator: Tom Layton
Relationship to Owner: same

Changes in the Past 25 Years: More grains and timber.
Additional Information: New partners are our children, Oren Brian Layton and wife Sarah, Elizabeth Layton Jochim and husband Brian, Amy Marie Layton Hite and husband Ryan, and grandchildren.
Contact: Tom and Sharon Layton, 274 Layton Rd., Toledo, WA 98591

The Layton/Armstrong Farm, est. 1867

Current Owner: Greg and Signora Armstrong
Relationship to 1989 Owner: son and daughter-in-law
Current Operator: Virginia Matthews
Relationship to Owner: lessee

Changes in the Past 25 Years: From 1989 to 2005, Christmas trees were the main crop. From 2006 to 2011, wheat was raised. Since 2012, haylage and oats are being raised.
Additional Information: Bob and Edna Armstrong are deceased and Greg and Signora Armstrong started managing the farm in 2011.
Contact: Greg and Signora Armstrong, P.O. Box 1168, Toledo, WA 98591

The Layton/Kirkendoll Farm, est. 1867

Current Owner: Beverly Kirkendoll
Relationship to 1989 Owner: daughter-in-law
Current Operator: Beverly Kirkendoll
Relationship to Owner: same

Changes in the Past 25 Years: Edith Layton Kirkendoll worked on this parcel pretty well into her 90’s. She passed away at the age of 100 years, one month and five days in 2004. The farm passed to her son Gary, who passed away in 2011. His widow is Beverly Kirkendoll.
Contact: Beverly Kirkendoll, 191 Layton Rd., Toledo, WA 98591

Washington’s Centennial Farms, 25 Years Later

Changes in the Past 25 Years: We have switched from dairy farming to raising beef. The original house, water system and orchard remain.

Additional Information: The family has a homestead certificate signed by President William McKinley. Conrad and Katherine’s daughter and son are the fifth generation on the farm.

Contact: Katherine and Conrad Thomas, 749A Silverbrook Rd., Randle, WA 98377

MASON COUNTY

The Kirkland/Ragan Farm, est. 1877

Current Owner: Daniel, Frank, Gordon and Marie Ragan
Relationship to 1989 Owner: sons and daughter
Current Operator: Ragan family
Relationship to Owner: same
Washington's Centennial Farms, 25 Years Later

PACIFIC COUNTY

Habersetzer Family Farm, est. 1887

Current Owner: Mary Lynette (Habersetzer) and Bob Falkner, Tim Falkner
Relationship to 1989 Owner: same and son
Current Operator: Tim, Bob and Mary Lynette Falkner
Relationship to Owner: same

Changes in the Past 25 Years: Ruth Habersetzer passed away in 2003. Bob and Mary's son moved back to live in the old farmhouse and continue farming. The fifth generation of the family and all the children are involved with the timber. Several of the original buildings still stand, including two wonderful old barns (one constructed with wooden pegs and hand-hewn timber), the old farmhouse, and one machine shed.

Additional Information: Before Ruth passed away she dissolved the jointly-owned partnership with her daughters and gifted separate parcels to each daughter. Mary Lynette's parcel had been put into the Habersetzer Tree Farm LLC, which consists of Bob and Mary Lynette and their four children -- Kate, Tim, Mary Beth and Elly -- so that the special piece of the earth will pass forward to a new generation and remain in the family.

Contact: Mary Lynette and Bob Falkner, 2943 State Rt. 6, Raymond, WA 98577

The Morehead Farm, est. 1885

This Centennial Farm left family ownership around 1990 when the owner, John A. Morehead, Jr., became unable to continue farming. He died in 1991 at the age of 81.

Contact: Dorothy Williams, 4017 35th Ave. W., Seattle, WA 98199

PIERCE COUNTY

The Davidson Farm, est. 1889

Current Owner: Joseph R. and Peggy L. Dervaes
Relationship to 1989 Owner: same
Current Operator: Joseph R. and Peggy L. Dervaes
Relationship to Owner: same

Changes in the Past 25 Years: We discontinued farming most crops and livestock raised in the past, and now farm fruit trees. The original house, shop outbuilding, a chicken coop and a barn are still in use today.

Contact: Joseph R. and Peggy L. Dervaes, P.O. Box 318, Vaughn, WA 98394

The John Dillard King Farm, est. 1884

Current Owner: Monte and Christine King
Relationship to 1989 Owner: cousin and cousin’s wife
Current Operator: Monte and Christine King
Relationship to Owner: same

Changes in the Past 25 Years: We built our house in 2004 and have diversified back to more livestock and continue to work on field/land health as well as other projects to keep the farm sustainable.

Additional Information: My husband and I became owners in 2010. Our son, Colton Carr (born 2005), is the sixth generation to live and farm here. Grama Joyce Niemann still lives in the house she was born in and her daughter, (my aunt) Noel Niemann, lives with her. My father Chuck Niemann lives across the road and helps us often.

Contact: Nicole Niemann-Carr, P.O. Box 981, Vaughn, WA 98394

Sunnycrest Farm, est. 1886

Current Owner: Frances M. Nix and Judy Nix

Relationship to 1989 Owner: widows

Current Operator: Jeff Spooner Farms

Relationship to Owner: not related

Changes in the Past 25 Years: A six- and four-acre parcel were sold over the years for rental buildings. The Linden Golf and Country Club continues to lease the 107 acres that are not farmed.

Contact: Frances M. Nix, 11704 32nd St. E., Edgewood, WA 98372

Thurston County

The Colvin Ranch, est. 1854

Current Owner: Doris Colvin

Relationship to 1989 Owner: one of the owners

Current Operator: Fred Colvin

Relationship to Owner: son

Changes in the Past 25 Years: The farm is now protected with an agricultural conservation easement through USDA that will ensure it will always be used for farming.

Additional information: The original house is still in use.

Contact: Fred A. Colvin, 16816 Old Hwy 99 S.E., Tenino, WA 98589
**The Hilpert Farm** est. 1858

**Current Owner:** Martha Harjo and William Townsend  
**Relationship to 1989 Owner:** daughter and son  
**Current Operator:** William Townsend

**Changes in the Past 25 Years:** Eileen Hilpert Townsend passed away in 2004. She passed ownership of the farm to her husband Frank Townsend. When he passed away in 2009, the property was divided between their children Bill and Martha. Bill owns the land east of the Skookumchuck River and Martha owns the land west of the river, where she had been gifted two acres 30 years ago to build a house and raise her family.

**Additional Information:** Bill and his family moved into the original farm house in the 1980s. Bill has remodeled the house and the barn. The improvements keep the farm operational. Bill farms his land; Martha’s land, which was second growth fir, cedar and alder, was logged in the last five years and has been replanted in trees. The farm looks better now than it did 25 years ago.

**Contact:** William O. Townsend, 22149 Bucoda Hwy 507 S.E., Centralia, WA 98531

---

**The Spirlock/Nelson Farm** est. 1862

**Current Owner:** Richard, Ronald, Kay, Ginny, Scott, Jill, and Karen Nelson  
**Relationship to 1989 Owner:** same, and fifth generation  
**Current Operator:** Scott Nelson with the help of Ron, Kay, Rick, Jill, Ginny, and Karen  
**Relationship to Owner:** same

**Changes in the Past 25 Years:** Currently raise all-natural grass-fed cattle. All cattle are born on the prairies of south Thurston County in the spring and range free on the acreage. The fifth generation of the family joined their parents and uncle as farm owners in 1999.

**Additional Information:** We believe in being responsible stewards of the land. Our sustainable methods include rotational grazing along the lush meadows of the Deschutes River. We have also worked with USDA’s Natural Resources Conservation Service, a division of the Department of Agriculture, to minimize our impact on the environment by voluntarily building fences along the river, updating our irrigation system, and further limiting animals’ access to the river by adding several watering troughs. We also updated drainage in our barns and added a manure storage facility. In 2008 we added roughly 130 red and white wine grape vines as an experimental project. We sell quarters and halves of beef, as well as hamburger by the pound to individuals and local businesses. We are happy to give farm tours for people interested in our methods and products.

**Correction to the 1989 Book:** James Spirlock purchased 160 acres further south on Rocky Prairie in November 1860, but this land is not currently owned by family.

**Contact:** Jill Nelson, 3624 Waldrick Road S.E., Olympia, WA 98501

**Thurston County**
The Thomas Rutledge Homestead, est. 1856, p. 42

**Wahkiakum County**
The Foster Farm, est. 1865, p. 31
THIS PAGE INTENTIONALLY LEFT BLANK
North Puget Sound farmers, perhaps more than farmers in any other region, have experienced tremendous change over the last 25 years. The departure of food processors, major changes in the dairy industry, and population growth of almost 60 percent have all played a part in reshaping the region’s agricultural economy.

This region continues to be a diverse mix of agricultural pursuits. The make-up of that mix, however, has changed and the region’s Centennial Farms illustrate some of the ways family farms have adjusted.

**Dairies are larger and fewer in number**

“Adaptability is the key to staying in the dairy industry,” said Krista Stangeland, an owner of the Major and Nordby Centennial Farms in Snohomish County. She said increased regulatory requirements for managing dairy manure, while protecting waterways, have significantly raised costs for dairies. And fluctuations in milk prices make it difficult to predict cash flow and to weather lean times, especially for smaller operations.

Northwest Washington is still home to the greatest number of the state’s dairy farms and milk is the region’s top ag commodity in value, but the number of dairy farms is only a quarter of what it was in 1989, matching the statewide decline in dairies.

Of the 28 responding Centennial Farms, ten were dairies in 1989. In 2014, only three are still in the business and each has grown larger; many of the former dairies are smaller operations that now lease their land to other farmers.

Signe Cairus dumps grain into an eager calf’s feed bucket at her family’s Stangeland Dairy in Snohomish County.

Of the 41 Centennial Farms in this region, 28 responded to the 2014 questionnaire. Of those, 24 continue to be owned by a descendant of the 1889 landowner. Three of the region’s farms have been in the same family for more than 150 years, with the oldest dating from 1851.
It’s potatoes, not peas, today

In 1989, this region was also a center of the state’s vegetable industry, producing a variety of vegetables—including green peas, sweet corn and carrots—for an abundance of local processors. Those companies “slowly, but surely quit contracting acreage in our part of the state,” said Darrin Morrison of the Morrison Farm in Skagit County. A fresh market potato industry has taken its place and includes most of the Centennial Farms in Skagit County that used to grow peas.

“We had to reinvent ourselves,” said John Thulen of the nearby Peth Farm. Like the Morrison Farm, the Peth Farm has expanded and now grows, packs and markets its own potatoes.

The region’s Centennial Farms reflect a continuing diversity of the region’s agriculture that includes beef, berries, seed crops, bulbs, grains, forages and more.

Farmland and open space preservation a major effort

Recognizing the many pressures on a long-valued industry, local governments and the agricultural community have organized to maintain the long-term viability of the region’s agriculture over the last 25 years. This has included efforts to preserve farmland and open space. Examples include several Centennial Farms in this region. Three of the four Centennial Farms that are no longer in family ownership have been preserved from development. Both the Iverson Farm (now a county natural area) and the Pearson Farm (owned by the National Park Service) still have working farmland, while the Eide Farm is part of a state wildlife refuge. Two other farms have partnered with the cities they adjoin to preserve open space: 20 acres of the Ovenell Farm will provide recreational access to the Stillaguamish River at Stanwood and 42 acres of the Freund Farm are parkland and open space in Oak Harbor.

Organic, Direct Marketing

There’s also clear evidence of the trend toward locally grown and organic food among the North Puget Sound Centennial Farms. The Frohning Dairy is now raising milk-fed pork, and eggs from free-range chickens, while the Hayton Farm grows organic and conventional berries, and sells them to restaurants and at farmers’ markets around the greater Seattle area.

Centennial Farms by the numbers: 1989 vs 2014

- Of the 24 farms still in the family, eight are owned by the same owners as in 1989. Nine have been passed on to a child or grandchild. Six are owned by the 1989 owner and the next generation, and one is owned by a niece.
- Thirteen farms list a current owner as the day-to-day operator of the farm, five list a child or grandchild as the operator. Five are operated by a non-relative and one by an owner and a non-relative.
- The general trend in farm size is smaller. Excluding the two large potato farms, the average size of North Puget Sound Centennial Farms was 223 acres in 1989 and 161 acres in 2014. Farm sizes in 1989 ranged from 20 to 807 acres, and in 2014, from six to 2,000 acres.
- In 1989, half of the farms were dairy or beef operations and the top crops were forages and green peas. In 2014, fewer farms are dairies and the most common crops are potatoes and hay.
### The Freund Farm, est. 1851

Current Owner: Nancy, Carl, Janet, and Sally Freund  
Relationship to 1989 Owner: children of Arnold, grandchildren of Winifred  
Current Operator: Carl Freund  
Relationship to Owner: one of the owners

Changes in the Past 25 Years: Thirty-five acres were sold to the city of Oak Harbor for use as open space and a park, through Island County’s Conservation Futures Fund. Seven acres were deeded to the city for additional parkland. About 20 acres were sold for commercial and residential use. Another 13 or so acres are commercial leased land.

Additional Information: The original 1860s home, machine shop, machine shed, granary and two 1920 farm houses are still on the property.

Contact: Carl Freund, 2498 S.W. Freund St., Oak Harbor, WA 98277

### The Iverson Farm, est. 1882

This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 1999.

Is the Land Still Farmed? Yes, 68 acres are leased out for commercial seed farming. This farm was sold to Island County and now makes up part of the Iverson Preserve, operated by Island County as a Natural Recreation Area.

Contact: Steve Marx, Assistant Director, Island County Parks, P.O. Box 5000, Coupeville, WA 98239

### The Pearson Farm "Engleholm," est. 1869

This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 1998.

Is the Land Still Farmed? Yes. The Engle family continues to farm grains, corn and alfalfa, leasing the land from the National Park Service. Ownership of the farm changed in 1998 and again in 2001 when the Park Service purchased the land to protect it from development. The Park Service intends to return it to private ownership with a conservation easement so it can be farmed in perpetuity.

Contact: Roy Zipp, National Park Service Operations Manager, 593 Fort Casey Rd., Coupeville, WA 98239

---

**Overview of the farm listings**

Each farm listing contains the information provided by Centennial Farm families in response to the WSDA questionnaire. Each listing is a 2014 snapshot of the farm’s ownership, family connections, size of operation, and crops and livestock produced. It often includes comments about changes in the last 25 years and, as much as possible, is in the voice of the respondent.

Each listing notes the page number for the farm’s profile in the 1989 book, *Washington’s Centennial Farms – Yesterday and Today* or its addendum, available on the WSDA website. A farm’s 2014 listing is best understood and appreciated when read with its 1989 profile, where you’ll find information on the farm’s establishment and its operation at the time of the state’s Centennial.

The booklet is organized alphabetically by county, and within the county, alphabetically by farm name. Farms that did not respond are listed at the end of the chapter.
**San Juan County**

**Sherman Farms, Inc., est. 1885**

Current Owner: Wilbur and Karen Bishop, Clark Bishop  
Relationship to 1989 Owner: Wilbur and Karen were part of the 1989 ownership; Clark is their son  
Current Operator: Wilbur, Karen and Clark Bishop  
Relationship to Owner: same

**Current Operator:** Wilbur, Karen and Clark Bishop  
**Relationship to Owner:** same

**Changes in the Past 25 Years:** Brothers Al and Roger Sherman retired in 1997. Their ownership was purchased by active farming family members Wilbur and Karen Bishop, and Don and Debra Sherman. In 2007, ownership was divided and the 550-cow dairy herd was sold. The Bishops retained the original LeSourd land, operating under the new name, Ebey Road Farm, Inc. The Bishops’ son, Clark, joined in farm ownership in 2013, the sixth generation farming the LeSourd property.

**Additional Information:** The barn, built in 1899, and the granary, built in 1923, were recently renovated and are listed on the state Heritage Barn Register. Both are still used in the farming operation.

</tr>
</tbody>
</table>

Changes in the Past 25 Years: The dairy is no longer operating and the land is leased to Sakuma Bros. Farms, which bought 80 acres of the farm in 2001. The houses and barn are rented out. Ten acres of the original parcel were bought back from the state in 1990.

Additional Information: The farm was primarily a dairy for over 100 years, but William E. Benson sold his herd in 1994. The farm is now leased for berry production. Bill Benson, 81 years old, still holds a full-time job.

Contact: Susan Janicki, 24917 Benham Rd., Mount Vernon, WA 98273

The Hall Farm est. 1884

Current Owner: Janet Hall McRae, Fred Hall, Roger Hall
Relationship to 1989 Owner: daughter and sons
Current Operator: Gary Knaus
Relationship to Owner: friend

Changes in the Past 25 Years: Our mother Nina Hall died in 2005 and in 2006 we rented the farm to a family that runs cattle on the property.

Additional Information: My brothers and I still own all the property on the Hall family farm. I am married to James McRae (of the McRae Farm). Together we own and operate a beef cattle ranch and timber ground totaling more than 400 acres.

Contact: Janet McRae, 20082 Prairie Rd., Sedro-Woolley, WA 98284

The Hayton Farm est. 1876

Current Owner: Robert and Susan Hayton, Richard Hayton
Relationship to 1989 Owner: three of the owners
Current Operator: Robert Hayton
Relationship to Owner: one of the owners

Changes in the Past 25 Years: We now grow potatoes, and we don't grow pickling cukes. The granary is used for hay storage and the old white barn for storage and a potato packing line.

Additional Information: We sell at a lot of farmers markets now, thanks to next-generation farmer, Angelica Hayton. The last 10 years we've grown most of our berries certified organic.

Contact: Hayton Farms Berries, 16498 Fir Island Rd., Mount Vernon, WA 98273
### The Holtcamp Farm, est. 1884

**Current Owner:** Holtcamp Properties LLC: Mildred Holtcamp; William E. Holtcamp; Betty Groszham; Sally Wendover; James, Thomas, Gretchen and Joe Holtcamp  
**Relationship to 1989 Owner:** widow and children  
**Current Operator:** Lessees  
**Relationship to Owner:** not related

**Changes in the Past 25 Years:** All livestock was sold in 1998 and the land is now rented to potato growers. Six of the farm's original buildings are rented to RV owners for storage.

**Additional Information:** W.H. Holtcamp died Oct. 29, 2012, at age 91; wife Mildred is now 90.

**Contact:** Mildred or Tom Holtcamp, 10080 Holtcamp Rd., Sedro Woolley, WA 98284

### Island View Farms, Inc., est. 1885

**Current Owner:** Phil C. Inman  
**Relationship to 1989 Owner:** one of the owners  
**Current Operator:** Lessee  
**Relationship to Owner:** not related

**Changes in the Past 25 Years:** The retail nursery was sold and 11 acres closest to the homestead are more for agri-tourism, including a fresh market farm stand. The granary building has been renovated as a restaurant. The 1914 farmhouse on the property is still in use, and the original house built by Isaac and Margaret Jennings in 1884 is still in use on a neighboring farm.

**Additional Information:** Both of the 1989 owners died within 14 months of each other in 2011 and 2012; now the fifth and sixth generations have the opportunity to continue in their forefathers’ footsteps.

**Contact:** Jen Hart, 16072 Best Rd., Mount Vernon, WA 98273

### The McRae Farm, est. 1885

**Current Owner:** Donna Stone, Eunice Jenkins, Mary Hall, George and Jim McRae  
**Relationship to 1989 Owner:** same  
**Current Operator:** Jim McRae  
**Relationship to Owner:** one of the owners

**Changes in the Past 25 Years:** The retail nursery was sold and 11 acres closest to the homestead are more for agri-tourism, including a fresh market farm stand. The granary building has been renovated as a restaurant. The 1914 farmhouse on the property is still in use, and the original house built by Isaac and Margaret Jennings in 1884 is still in use on a neighboring farm.
Changes in the Past 25 Years: The farm is the same. George McRae still lives in the 1908 five-bedroom farmhouse.

Additional Information: The five McRae siblings still own the 20 acres of the original 160-acre parcel. In 1985, Jim and Janet McRae bought Jim's grandparents' farm, 32 acres that have been in the family since James and Nellie McKee bought it in 1908.

Contact: Jim and Janet McRae, 20082 Prairie Rd., Sedro Woolley, WA 98284

### The Morrison Farm, est. 1889

Changes in the Past 25 Years: We’ve gone from mainly processed vegetable crops to mainly fresh potatoes. We have also become a grower-packer-shipper. The original house and two original barns are still in use, but uses have changed.

Additional Information: We are fourth generation farmers but in the last two years the fifth generation has gotten involved, one with bookkeeping, another in shop repair, maintenance and field work.

Contact: Keith Morrison, Morrison Farms LP, 19224 Morrison Rd., Mount Vernon, WA 98274

### Munks Farm, est. 1859

Current Owner: Don and Cathy Munks
Relationship to 1989 Owner: son and daughter-in-law
Current Operator: Darci and Tom Toth
Relationship to Owner: daughter and son-in-law

Changes in the Past 25 Years: We became a purebred Angus cattle operation. I quitclaimed acreage that had been dedicated for a railroad station, which closed in the 1930s, back from the railroad in 1997.

Additional Information: William Munks brought the first cattle onto this farm/ranch in 1859 and there have been cattle on the property every year since that date.

Contact: Don Munks, 9578 March's Point Rd., Anacortes, WA 98221

### The Peth Farm, est. 1881

Current Owner: John Thulen
Relationship to 1989 Owner: grandson
Current Operator: John Thulen
Relationship to Owner: same
Changes in the Past 25 Years: The farm has gotten larger to accommodate our son coming home to farm with us. Gail and Colleen Peth Thulen owned the farm from 1995 to 2012. John Thulen has owned the farm since 2012.

Additional Information: Before my wife Colleen passed away in 2012, we took a trip to Germany to trace the Peth family roots. Colleen traced the family back to the 1600s on the same farm. We were able to find that farm, and feel the dirt and walk on it, and see where her grandfather John J. Peth grew up. The young man farming it now told us he was the 16th generation on that farm. The landscape was very similar to Skagit Valley with the same complaints of low prices, bad weather, not enough labor, but we saw that love for the land. In 2011, we began to transfer ownership of the farm to our son John and Colleen was able to see him take over the farm she so dearly loved.

Contact: Gail Thulen, 12852 Dodge Valley Rd., Mount Vernon, WA 98273

The Summers Farm, est. 1872

Current Owner: William M. and Eunice E. Summers
Relationship to 1989 Owner: same
Current Operator: Renter
Relationship to Owner: no relation

Changes in the Past 25 Years: Less grass and grain are being raised. Too many regulations are being imposed on agriculture by federal, state and county bureaucrats. Salmon protection interests could threaten Skagit Valley agriculture.

Additional Information: The land has been farmed by a local farm since 2004. We intend to pass on the farm, if it still exists, to our children. The original house and barn are still in use.

Contact: William M. Summers, 13856 Rawlins Rd., Mount Vernon, WA 98273

SNOHOMISH COUNTY

The Eide Farm, est. 1878

This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 1996.

Is the Land Still Farmed? No. The Washington State Department of Fish and Wildlife asked if we would sell to them for use as a wildlife area, then they would own the last of the three farms on Leque Island. I was born in the family farmhouse that my grandfather built in 1910. It was a wonderful place, growing up on the banks of the Stillaguamish River. My father, Erik, is looking down from heaven with a smile, that the game and wildlife now have a "home."

Contact: Kathryn Eide Glick, 12212 Crossridge Ave. N.W., Silverdale, WA 98383

Frohning Dairy Inc., est. 1870

Current Owner: Tim and Sandra Frohning, Matt Frohning
Relationship to 1989 Owner: two of the owners and their son
Current Operator: Sandra and Matt Frohning
Relationship to Owner: two of the owners
Changes in the Past 25 Years: In the last 25 years, we have added Jersey cows to our formerly exclusively Holstein herd. We milked 70 cows in 1989 and now we milk 130. We rotational graze our cows. We are raising milk-fed pork which seems to be in high demand, and have egg production from free-range chickens. The biggest change is the next generation is farming and we are pleased.

Additional Information: Our story is really more about the farm owners. When Tim and I married in 1983, we tied together two Centennial Farms from the Tualco Valley, the Robert Smallman Homestead, est. 1875, and the Ariel Foye Homestead, est. 1877, which made our sons the fifth generation of Frohnings and the 6th generation of Foyes to be raised on the farm. Joy and sorrow mark the road for the last 10 years! Farming is about life and all that it encompasses, and that is truly what we have been about for the last 135 years on the Frohning’s Centennial Farm.

Contact: Sandra Frohning, 17506 S.E. 190th St., Monroe, WA 98272

Changes in the Past 25 Years: The farm passed from father to son.
Contact: Bruce D. Grimm, 1706 Pioneer Hwy E., Arlington, WA 98223

Changes in the Past 25 Years: We have sold more land to others because the fifth generation was not interested in farming. Improved flood control that began in the 1990’s may increase crop intensity.
Contact: Robert L. Johnson, 7708 45th Pl. W., Mukilteo, WA 98275

Changes in the Past 25 Years: The farm still operates as a dairy, but has expanded to include a neighboring dairy. This expansion meant we re-acquired all of the original homestead acreage. Four of our five children are involved in the dairy operation. The 1910 home and 1916 barn are still in use.
Additional Information: The Major and Nordby farms are both part of one farm operation run by the Stangeland family. The Major Farm is the primary dairy operation where the day-to-day business of milking and feeding of cows and heifers occur.

Contact: Janet Stangeland, 5411 Pioneer Hwy, Stanwood, WA 98292

Changes in the Past 25 Years: The original 1909 home is still in use, and the farm has not changed in the last 25 years.

Additional Information: The Major and Nordby farms are both part of one farm operation run by the Stangeland family. The Nordby Farm is used strictly for grazing, and only during the growing season.

Contact: Janet Stangeland, 5411 Pioneer Hwy., Stanwood, WA 98292

### The Nelson Farm, est. 1887

Current Owner: Carol and Mike McCrorie

Relationship to 1989 Owner: niece and her husband

Current Operator: Carol and Mike McCrorie

Relationship to Owner: same

Changes in the Past 25 Years: The City of Stanwood purchased 15 acres of the Ovenell property in November 2014 with grant funding from the Snohomish County Conservation Futures program. This land, bordered by the Stillaguamish River, is to be preserved as open space with recreational access to the river. The remaining acres of the original land is still owned by the family and is leased out for farming.

Additional Information: Ted Jr. and his family left the Stanwood farm and moved to eastern Washington in the early 1990s to raise dairy replacement heifers.

Contact: Kris Anderson, 31619 78th N.W., Stanwood, WA 98292
The Ulrich Scherrer Farm, est. 1889

Current Owner: John and Barbara Scherrer
Relationship to 1989 Owner: son and daughter-in-law
Current Operator: Raymond Scherrer
Relationship to Owner: son

Changes in the Past 25 Years: A Conservation Reserve Enhancement Program (CREP) project was planted in 2001.

Additional Information: The farm has been the location for the NOAA Cooperative Weather Station of Clearbrook since July 1919. The 1916 barn and the 1908 Sears house are still in use. Roderic Perry also owns another Whatcom County farm which was founded in 1874 by his ancestor, Ernest Strache.

Contact: Roderic Perry, 8992 Van Buren Rd., Everson, WA 98247
Non-Participating Farms

The following 13 farms in the North Puget Sound region did not participate in the 2014 project to reconnect with Washington’s Centennial Farms. This list notes the year the farm was established and the page it appears in the 1989 Centennial Farms book or its addendum.

**Skagit County**
The Chellman Farm, est. 1888, p. 67
The Larm Farm, est. 1887, p. A-11
The Swanson Farm, est. 1882, p. 66

**Snohomish County**
The Cedergreen Farm, est. 1882, p. 58
Getchell Ranch, est. 1874, p. 57
The Harvey Farm, est. 1860, p. 57
The Hemstrom Farm, est. 1886, p. 64
The Ohlsen Farm, est. 1882, p. 60
The Stehr Farm, est. 1888, p. 63

**Whatcom County**
The Macaulay Farm, est. 1883, p. 72
The Steele Farm, est. 1883, p. 71
The Stephens/Dickey Farm, est. 1884, p. 73
The Westergreen Farm, est. 1888, p. 72
Walla Walla County

For many, “Walla Walla” conjures thoughts of sweet onions and fine wines, but for its longtime family farms, Walla Walla is wheat country.

As a group, Walla Walla County’s Centennial Farms are the oldest in the state, with more than half established before 1875. Walla Walla is second only to Whitman County in the number of Centennial Farms, with 51 located across the county.

From its earliest days, Walla Walla has been a top wheat-producing county. In 2014, county farmers harvested 12.4 million bushels of mostly winter wheat from 188,000 acres, continuing its standing as one of the state’s top counties in terms of yield and total production. Walla Walla is also an important county in cattle and vegetable production.

Crop choices change over 25 years

Over time, the crops grown in rotation with wheat have changed. Dry peas are still popular, but acreage planted to barley has decreased, and more Centennial Farms report growing garbanzo beans, alfalfa and hay. Farms with irrigation grow a greater diversity of crops, including some of Walla Walla’s signature crops like sweet onions and alfalfa seed.

Overall, less acreage is being cropped, as the federal Conservation Reserve Program (CRP) has taken more than 25 percent of Walla Walla’s total cropland - the most erodible and environmentally

Response to Reconnecting with Washington’s Centennial Farms

Of the 51 Centennial Farms in Walla Walla County, 35 responded to the 2014 questionnaire. Of those, 33 continue to be owned by a descendant of the 1889 landowner.

Each year, members of the Plucker family return to the farm near Touchet to bring in the wheat harvest. Four generations were on hand in 2015.
sensitive - out of production through long-term contracts. Acres enrolled in CRP in 2014 totaled 150,000 acres, well above the 97,000 acres enrolled in 1989, which was shortly after the program began. These acres are planted to native and nonnative grasses.

**Wine industry helps grow ag economy**

Accolades received by Walla Walla’s first small wineries in the 1980s and the subsequent growth of the wine industry secured the county’s place on the tourism map, and enhanced its reputation for high-quality food and agricultural products.

Virtually all of Walla Walla’s 1,300-plus acres of wine grapes were planted in the last 25 years, and the county is home to about 125 wineries today, compared to just five in 1989, according to the Walla Walla Valley Wine Alliance.

In the six years since Carol Delaney, of the Gilkerson/Davis Farm, sold some of her farmland to grape growers, she’s been impressed by the buyer’s investment. Beyond the initial land purchase, “they built a 10-foot fence all around to keep the deer out (of course, it doesn’t), the windbreaks, the hand-labor for pruning,” Delaney said. “Seeing all that, the high cost of wine makes sense.”

**Conserving soil and restoring habitat**

Like farmers throughout the state, Walla Walla Centennial farmers report they are adopting more sustainable farming practices like no-till and minimum-till farming, and more efficient irrigation systems.

The Conservation Reserve Enhancement Program in Walla Walla County, initiated in 2000, is one of the largest in the state. Three Centennial Farms have participated – planting native trees, shrubs and grasses to restore fish and wildlife habitat along the Touchet and Walla Walla rivers.

---

**Centennial Farms by the numbers: 1989 vs 2014**

- Of the 33 farms still in the family, 11 are owned by the same owners as in 1989. Fourteen have been passed on to a child or grandchild. Five are owned by the 1989 owner and the next generation, and three are now owned by cousins or other relatives.
- Sixteen farms list a current owner as the day-to-day operator of the farm, five list a child, cousin or other relative and 12 are operated by a friend, neighbor or other non-relative.
- Twelve of the Centennial Farms have smaller operations than in 1989 and nine are larger, with the average size up from 1,081 acres in 1989 to 1,326 acres in 2014. Farm sizes in 1989 ranged from 40 to 5,777 acres, and in 2014, from 40 to 10,000 acres.
- Almost all of Walla Walla County’s Centennial Farms – 30 out of 33 – produced wheat in 2014. One reported all its cropland was in CRP, another is a livestock operation, and one leases its land to the state for wildlife habitat. Top crops in 2014 are wheat, dry peas and garbanzos. In 1989, the top three were wheat, barley and cattle.
- Only four Centennial Farms reported having cattle in 2014, compared to 11 with cattle 25 years ago.
- Only two of the responding Centennial Farms are no longer in the same family. Both are still being farmed.

---

The Kibler Farm, one of Walla Walla’s oldest Centennial Farms, grows wheat, hay and dry peas, and raises beef cattle. Its barn is one of several in the county that are on the state’s Historic Barn Register.
The Aldrich Farm, est. 1858

Current Owner: Carolyn A. Priest
Relationship to 1989 Owner: Normanita’s daughter, Percy and Esther’s niece
Current Operator: Pat McConnell
Relationship to Owner: no relation

Changes in the Past 25 Years: We no longer raise cattle, hogs, or green peas, and we now raise garbanzo beans, in addition to wheat and dry peas.

Additional Information: By 2004, the farm had passed to Percy Shelley Aldrich’s nine grandchildren, who managed it until 2011 when all except myself sold their shares. It is still operated as the Aldrich Farm, and I moved back to the family house in 2006 and live here today.

Contact: Carolyn Priest, 6880 E. Hwy 12, Waitsburg, WA 99361

Overview of the farm listings

Each farm listing contains the information provided by Centennial Farm families in response to the WSDA questionnaire. Each listing is a 2014 snapshot of the farm’s ownership, family connections, size of operation, and crops and livestock produced. It often includes comments about changes in the last 25 years and, as much as possible, is in the voice of the respondent.

Each listing notes the page number for the farm’s profile in the 1989 book, Washington’s Centennial Farms – Yesterday and Today or its addendum, available on the WSDA website. A farm’s 2014 listing is best understood and appreciated when read with its 1989 profile, where you’ll find information on the farm’s establishment and its operation at the time of the state’s Centennial.

The booklet is organized alphabetically by farm name. Farms that did not respond are listed at the end of the chapter.

Barrett/McInroe Farm, est. 1869

Current Owner: Jeanette D. Ambrose
Relationship to 1989 Owner: daughter
Current Operator: Alan Gradwahl
Relationship to Owner: friend

<table>

Changes in the Past 25 Years: Melville Cummins passed away in 2004. His widow Marian continues to reside on the farm. Melissa Cummins, a daughter and one of the current owners, moved back to the farm to retire in 2013. The farm cropland continues to be leased out.
Additional Information: Melville and Marian deeded the farm to their children, Melissa Cummins and Keith Cummins, in 1996. Marian retains a life estate.
Contact: Melissa Cummins, 191 Cummins Rd., Touchet, WA 99360

The Ferrel Farm, est. 1880

Current Owner: Greg and Jerri Ferrel, Gary and Lynn Ferrel
Relationship to 1989 Owner: grandsons and their wives
Current Operator: Greg Ferrel
Relationship to Owner: one of the owners

Changes in the Past 25 Years: We built a home on the spot where my parents’ home was and where my great-grandfather built his home in 1864. My dad started leasing 60 acres to the state about 25 years ago and we’ve continued to lease. Fish and Wildlife seeds it with grasses and it is habitat for deer, pheasants and quail. Six years ago I sold 70 acres that is now planted as a wine vineyard.
Contact: Carol L. Delaney, 2862 Mill Creek Rd., Walla Walla, WA 99362

Changes in the Past 25 Years: Farm production remains the same. All buildings are still standing and still in use.
Additional Information: Robert and Margaret Kibler owned the farm 1973-2013, after which time their three daughters have owned it.
Contact: Pauline Winters, 662 Mill Creek Rd., Walla Walla, WA 99362

The Lloyd Farm est. 1863 Page 81

This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 1990.
Is the Land Still Farmed? Yes, Perry and Darleen Dozier grow wheat and dry peas on the land, which is now part of the 2,500-acre Double D Ranches operation.
Contact: Perry Dozier, 262 Conover Rd., Waitsburg, WA 99362

The Lowden Farm est. 1883 Page 94

Current Owner: Lowden Wyatt and Claudia Borgens
Relationship to 1989 Owner: grandson and granddaughter-in-law
Current Operator: Chvatal Farms, Inc.
Relationship to Owner: neighbor

Changes in the Past 25 Years: We’ve made major improvements in irrigation, from flood to hand line and pivot irrigation. We’ve also added CREP plantings along the river to improve habitat for fish and wildlife. We plan to restore a bunkhouse, one of the original buildings.

Contact: Claudia Borgens, 1456 Barney Rd., Lowden, WA 99360

The Lowden/Dodd Farm, est. 1869

Current Owner: Lawrence Lowden Dodd  
Relationship to 1989 Owner: same  
Current Operator: Darren Goble  
Relationship to Owner: cousin

Changes in the Past 25 Years: We’ve improved the irrigation system. We closed open ditches and replaced buried plastic pipe. Part of the land is irrigated by pivot. We closed a pond used to pump irrigation water.

Additional Information: My great grandfather, Thomas Lyons, gave some 3,800 acres to his children. These tracts are now owned by different relatives, some of whom are part of the farm corporation of which Matthew Lyons Jr. and Elinor Sherry own majority interests. No land has been sold to outside interests. All landowners are direct descendants of Thomas Lyons.

Contact: Matthew Lyons Jr., 533 McCown Rd., Waticsburg, WA 99361

The Lyons/Dunphy Farm, est. 1871

Current Owner: Kelene (Kelly) Jones-Deccio, Tim Lyons, Judy Talbot and Louis Lyons  
Relationship to 1989 Owner: cousins  
Current Operator: Tim Lyons  
Relationship to Owner: one of the owners

Company (Lawrence L. Dodd’s great-grandmother and his two uncles) from 1895 to 1932, and by Mary Irene Johnson and J. Paul Dodd from 1932 to 1962. Francis M. Lowden Sr. purchased his first registered Shorthorn cattle in 1869.

Contact: Lawrence Dodd, 134 Lowden Gardena Rd., Touchet, WA 99360

Changes in the Past 25 Years: Little or no plowing, bigger machinery, no animals. An original barn is still used to store machinery.

Additional Information: For 13 years we have attempted to save the Lowden family's irrigated agriculture lands from being destroyed, in part by the Washington State Department of Transportation's plan to expand US Highway 12 to four lanes. In the fall/winter 2013-14, the Old Lowden open ditch, established in 1869, was changed to a pressure pipe system. Lawrence L. Dodd has lived in the 1909 house for the past 70 years.

Correction to 1989 Book: The farm was owned by the Lowden Company (Lawrence L. Dodd’s great-grandmother and his two uncles) from 1895 to 1932, and by Mary Irene Johnson and J. Paul Dodd from 1932 to 1962. Francis M. Lowden Sr. purchased his first registered Shorthorn cattle in 1869.

Contact: Lawrence Dodd, 134 Lowden Gardena Rd., Touchet, WA 99360
Additional Information: William Trammell owned the farm with his four aunts until 2000. Kem A. Jones, his cousin, was an owner from 2000 to 2009. The current owners, all cousins of William Trammell, have owned the farm since 2000.

Contact: Tim Lyons, 1457 Clarence Ave., Walla Walla, WA 99362

The Magallon Farm est. 1882

Current Owner: Albert C. Statler
Relationship to 1989 Owner: one of the owners
Current Operator: Mike Bowe
Relationship to Owner: leaseholder

Original Acres Retained | Acres Farmed | Acres Owned | Acres Operated | Crops or Livestock Raised
---|---|---|---|---

Changes in the Past 25 Years: Entered the CRP program in 1994 and this fall will start another 10-year contract.

Contact: Albert C. Statler, 7484 Mill Creek Rd, Walla Walla, WA 99362

The William McCown Farm est. 1878

Current Owner: Matthew Lyons Jr., Elinor Sherry, Richard Hagwell and Donald Hagwell
Relationship to 1989 Owner: sons and daughter
Current Operator: Matthew Lyons Jr.
Relationship to Owner: same

Original Acres Retained | Acres Farmed | Acres Owned | Acres Operated | Crops or Livestock Raised
---|---|---|---|---
1989 160 | 2014 1,064 | 1989 1,064 | 2014 1,064 | Wheat, barley, hogs, cattle, Wheat, dry peas, garbanzos

Changes in the Past 25 Years: No plowing, bigger faster machinery, no animals. We have the county’s oldest barn, though it is not in use today.

Additional Information: Farm ownership transferred from Maxine Hagwell to her sons Donald and Richard in 1995 and from Marjorie Lyons to her children Matthew Lyons and Elinor Sherry in 2006.

Contact: Matthew Lyons Jr., 533McCown Rd., Waitsburg, WA 99361

Contact: Robert G. Plucker, 7134 Mill Creek Rd., Walla Walla, WA 99362
Changes in the Past 25 Years: The farm has changed little, operationally, over the past 25 years: Robert and Marian live in the family farmhouse. Their sons and daughter now do the farm work using the same well-maintained farm equipment. Much of the acreage is now in CRP and CREP.

Additional Information: The circa 1945 shop was modernized. The circa 1920 barn is getting a new foundation and paint. The circa 1940 wood grain elevator with man-lift still stores the annual yield of wheat. The old windmill is repaired and erected, and we use the original outdoor dinner bell to call in the crew for dinner. A new entry sign built of river rock from the Touchet River and an original horse-drawn plow greets visitors. A large American flag flies over the farm, representing the family’s proud heritage.

Contact: Ron C. Plucker, 17 S.W. Homestead Ave., College Place, WA 99324

**W.P. Reser Farm, est. 1868**

Current Owner: Byron G. Reser, Philip and Colleen Reser, Mike Reser

Relationship to 1989 Owner: Byron is Ed Reser’s son. Philip was an owner in 1989 with his mother, Helen, and sister, Merridy and now owns Mike Reser Farms, Inc. with his wife Colleen and son, Mike.

Current Operator: Byron G. Reser; Phil and Mike Reser

Relationship to Owner: same

Changes in the Past 25 Years: One equipment storage building blew down in the winter of 2009-2010. The original house, garage and shop are still in use.

Additional Information: The 1989 owners have all passed on. My father David Henry Roberts died in 1991; the David and Adda Roberts Trust was an owner until 2006 when my mother Adda died. My aunt, Lydia Roberts, died in 1999; Lydia’s children, Muriel Roberts Hamilton and Richard Louis Roberts, were farm owners 1985-2006. Lydia’s son David Roth Roberts, an owner since 1958, died in 2004. The family...
trust my wife Betty and I set up has been a farm owner since 1997; Betty’s decedent’s trust has been an owner since 2010.

Contact: Jack H. Roberts, 1110 Wilson Hollow Rd., Waitsburg, WA 99361

**The Shelton Farm** est. 1869

Current Owner: Carma Carlson-Bergen and Martha Dybdahl
Relationship to 1989 Owner: same
Current Operator: Ray Reser
Relationship to Owner: neighbor

<td>Wheat, barley</td>
</tr>
</tbody>
</table>

Changes in the Past 25 Years: Currently, 500 acres are under center pivot irrigation. The balance of the land is dryland wheat/summer fallow.

Additional Information: After George Struthers II died in 1990, the farm passed to his nephew, Allen Dale Struthers and his wife Sarah Jane. Their daughters, Linda and Susan, inherited this land in 2003 and Susan sold her share to her brother, George. In 2005, George purchased land previously owned by his great-great-uncle, William Struthers, brother of George Struthers Sr. Other family land that had been farmed by George Struthers Sr. is owned by George’s sister, Linda Struthers of Mercer Island, Wash., cousins John and Tom Struthers of Minnesota, and aunt Bonny Struthers of Walla Walla.

Contact: George Struthers, 500 Struthers Rd., Prescott, WA 99348

**The Tompkins Farm** est. 1889

Current Owner: Tolanco, Inc., (Ron Tompkins, his wife and two daughters), Game Over LLC (David Tompkins), Tabor Tompkins
Relationship to 1989 Owner: same; David is Ron’s cousin and Tabor is David’s son.
Current Operator: Tompkins Bros.
Relationship to Owner: nephews of Ronald Tompkins

Changes in the Past 25 Years: The farm is now part of a larger farm operation. The original 2,440-acre farm is too small to operate alone.

Contact: Ron Tompkins, 819 Country Club Rd., Walla Walla, WA 99362

**The Waggoner Farm** est. 1882

This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 2010.

Is the Land Still Farmed? Yes, Derek Duke of Duke Farms, Henderson, Nevada, owns the farm as investment property. Ownership became too complicated and a reasonable selling price became appealing to many of the 22 owners, all of whom had different perspectives on the farm's outcome. The entire 761 acres, with a farmhouse built in 1915, bunkhouse, and shop, were owned by the
family for 128 years. After it was sold to Duke Farms, one family member purchased back the farmhouse and 20 acres for their own use. 

Contact: E. Alan Scheik, 6327 S. King Rd., Evergreen, CO 80439

**The Yeend Farm**, est. 1870

Current Owner: Marjery Jean Small  
Relationship to 1989 Owner: same

Changes in the Past 25 Years: The farming corporation was dissolved in 2010 and all farming is now done by Jason Beechinor on a lease basis. The Yenney family retains ownership and Yenney grandchildren live in the home on Russell Creek.

Contact: Kathleen Yenney, 711 Swainson Ln., College Place, WA 99324

**Non-Participating Centennial Farms**

The following 16 farms in the Walla Walla region did not participate in the 2014 project to reconnect with Washington’s Centennial Farms.

- The John P. Anderson Farm, est. 1883, p. 102
- The Bergevin Farm, est. 1865, p. 93
- The James Berryman Farm, est. 1878, p. 89
- The Dement Farm, est. 1879, p. 99
- The Drumheller Farm, est. 1877, p. A-17
- The Flathers Farm, est. 1871, p. 81
- The Gallaher/Buroker Farm, est. 1869, p. 85
- Gallaher/McInroe/Young Farm, est. 1869, p. 85
- The Lane Farm, est. 1889, p. 88
- The Leid/Hansen Farm, est. 1889, p. 97
- The Martin Farm, est. 1869, p. 86
- The McKinney Farm, est. 1864, p. 82
- The Cyrus Nelson Farm, est. 1877, p. 88
- The Reser Farm, est. 1862, p. 92
- The Saturno/Breen Farm, est. 1880, p. 90
- The Strahm/Mason Farm, est. 1874, p. 97
Continuity and stability are the hallmarks of Centennial Farms in the Southeast region. Almost all the responding farms in Asotin, Columbia and Garfield counties are still in the same family, and all are wheat growers, except one with all its cropland in CRP.

Like much of eastern Washington, this is dryland wheat country. In 1989, these three counties produced almost 10.2 million bushels of wheat; in 2014, production topped 12 million bushels. In the past 25 years, wheat farming operations in Washington have gotten larger, changed their mix of rotation crops, and adopted practices to reduce soil erosion and improve soil quality. These changes are illustrated by the Centennial Farms in Southeast Washington.

**Wheat operations expanding in size**
Most Centennial Farms in this region reported their farm size was the same or larger in 2014 than in 1989, with some noting significant expansion. The Ingram Farm reported it doubled in size over the last 25 years and is now a 2,200-acre operation. The Abbey Farm more than doubled its operation by leasing the land of the neighboring Harris Family Farm, another Centennial Farm. About one-third of the Centennial Farms reported they lease their land, often to a neighbor. The Centennial Farms that are still in the same family averaged just over 2,000 acres in size.

**Changes in rotation crops**
Wheat has always been the mainstay of these farms. In 1989, barley was the second crop on most Centennial Farms and grass seed was commonly grown. Almost half the farms raised cattle or other livestock. In 2014, these farms reported growing fewer and different crops in rotation with wheat. Only a handful reported growing barley, with garbanzo beans and peas now as likely to be grown. No grass seed was reported and only half as many farms had cattle on the farm. Another new “crop” has appeared on the local
Sustainability
Several farms noted they had changed tillage practices over the past 25 years, especially to no-till or two-pass farming. Overall, less acreage is being cropped in the region. Acres enrolled in the Conservation Reserve Program (CRP) in 2014 totaled 108,000 acres, double the acreage enrolled in 1989. More than 20 percent of the cropland in the three counties is enrolled in CRP.

Family continuity
Dave Ruark, of the Thomas Ruark Farms in Garfield County, observes from his lifetime in agriculture that farm families are getting smaller, and the younger generation considers a broad range of vocations. At the same time, he says “I see a lot of the young people coming back to the farm when they can. There are better living conditions out on the farm.” For newcomers to agriculture, the cost of getting started is expensive. “If you aren’t born into it or marry into it, it’s not easy.” Ruark says he is gently pinning some of his hopes on his granddaughter, now in high school and a seventh generation farmer, that she will choose a well-loved family path on the Thomas Ruark Farm.

Centennial Farms by the numbers: 1989 vs 2014
- Of the 27 farms still in the family, nine are owned by the same owners as in 1989. Thirteen have been passed on to a child or grandchild. Three are owned by the 1989 owner and the next generation, and two are now owned by cousins or a nephew.
- Thirteen farms list the current owner or one of the owners as the day-to-day operator of the farm, five list a child or grandchild as the operator, two another relative and seven are operated by a non-relative.
- Eight farms have smaller operations than in 1989 and eight are larger, with the average size shrinking from 2,496 acres in 1989 to 2,052 acres in 2014. Farm sizes in 1989 ranged from 217 to 16,635 acres, and in 2014, from 30 to 12,000 acres.
- In 1989, both wheat and barley were grown on most farms, with cattle raised on almost half the farms. In 2014, wheat was still the top crop however, farms are about as likely to grow garbanzos or peas as barley. Only half as many farms reported raising cattle.
- In both cases where Centennial Farms left family ownership, the land is still farmed.

Three generations – Paul, Savannah and Dave Ruark – on the Thomas Ruark Farm, Garfield County

Dick Ingram’s son Justin is now a partner in Ingram Farms, which has doubled in size over the last 25 years.
ASOTIN COUNTY

The Bolick Farm, est. 1879

Current Owner: Jack D. Bolick Trust and Family
Relationship to 1989 Owner: widow and children
Current Operator: Kenneth H. Weiss

Changes in the Past 25 Years: The shops, pump house and cellar still stand. Some old buildings have fallen down. We grow different crops. We have wind towers on the property now.

Contact: Dain C. Nysoe, 216 S. First St., Dayton, WA 99328

The Harris Family Farm, est. 1880

Current Owner: Donald G. Harris Testamentary Trust
Relationship to 1989 Owner: trust of 1989 owner
Current Operator: Linda H. Stonecipher
Relationship to Owner: sole trustee, daughter of Donald

Changes in the Past 25 Years: The farm is now leased to Abbey Farms, Inc., also a Centennial Farm, which is adjacent to the Harris Family Farm. We remodeled the house, which is rented and nicely maintained.

Additional Information: Abbey Farms is on one side of us and the Neace Farm is on another. All are Centennial Farms, making this a very historic valley of the Lower Whetstone, Columbia County!

Contact: Linda Harris Stonecipher, 94 Stonecipher Rd., Waitsburg, WA 99361

Changes in the Past 25 Years: In the past 25 years, John raised game birds, including pheasants, bobwhites, chuckars, and turkeys. John and Bertha did the farming.

Additional Information: When Wilber incorporated the company in 1976, he had four sons who were owners with him. Beginning in 1980, two of his sons, John and Dick, and their wives, Bertha and Kay, were the farm’s owners. John died in 1999, and ownership remains with his widow, brother and sister-in-law.

Contact: Bertha Hinchliff, 622 Harlem Rd., Dayton, WA 99328

Hinchliff & Sons, Inc., est. 1872

Current Owner: Hinchliff & Sons, Inc.: Dick and Kay Hinchliff, Bertha Hinchliff
Relationship to 1989 Owner: three of the owners
Current Operator: David Carlton, DOK Inc.
Relationship to Owner: neighbor

Changes in the Past 25 Years: The farm has doubled in size. My son, R. Justin Ingram, is now a partner.

Additional Information: The original 80-acre parcel of land that established this Centennial Farm in 1989 was acquired by James Henry Ingram in 1874. The parcel was sold after the death of W. Johns Ingram in 2005, subdivided, and homes have been built on it. The family has a record of the filing of the warranty deed, dated July 22, 1889, for a 40-acre parcel James Henry Ingram purchased from the Northern Pacific Railroad. Richard Ingram still owns and farms this land, maintaining the farm’s connection to its Centennial Farm status.

Contact: Richard H. Ingram Jr., 610 Patit Rd., Dayton, WA 99328

**Washington’s Centennial Farms, 25 Years Later**
Changes in the Past 25 Years: We are not rotating crops anymore, just growing wheat.

Additional Information: John Bowman passed away in 1994 and the farm was inherited by his three children: Linda, Jeffrey and Teresa. Jeffrey Bowman sold his one-third share to Teresa Bowman in December 2000.

Contact: Linda Crawford, 61382 King Solomon Ct., Bend, OR 97702

Rainwater Ranch est. 1874

This Centennial Farm is no longer owned by the Rainwater family. The farm left family ownership in 2004 when it was divided and sold to three parties.

Is the Land Still Farmed? Yes, Roger Gibbons owns and farms the original Centennial Farm land. Rainwater Ranch was the owner until 1991. From 1991-2004 the ranch was owned by Lloyd Jr., and Dayle and Dean Rainwater. The farm was sold because no family member was interested in continuing to farm or ranch. Most of the land was bought by the Confederated Tribes of the Umatilla Indian Reservation.

Contact: Faye Rainwater, 126 S. Touchet Rd., Dayton, WA 99328

Rockhill Ranch est. 1871

This Centennial Farm is no longer owned by the family that owned it in 1989. The farm left family ownership in 2001. Clay and Rachel Hutchens now own the farm.

Contact: Clay Hutchens, 327 Poulson Rd., Dayton, WA 99328

The Willis Thronson Farm est. 1881

Current Owner: Jean Nelson, Linda Johnson, Don Thompson, Gailord Nelson, Mike Nelson, Carolyn Laib

Relationship to 1989 Owner: same owners, plus Gailord (Jean’s husband)

Current Operator: Mike and Mary Nelson, John and Carolyn Laib

Relationship to Owner: two of the owners (cousins) and their spouses

**Current Operator:** Paul Ruark

**Relationship to Owner:** David’s son
The Scoggin Farm, est. 1877

Current Owner: Everett L. Scoggin
Relationship to 1989 Owner: same
Current Operator: Max and Brian Scoggin
Relationship to Owner: son and grandson

Changes in the Past 25 Years: No changes. Cynthia rejoined her brothers as an owner in 2002.
Contact: David Ruark, 274 Malone Hill Rd., Pomeroy, WA 99347

The Stallcop Farm, est. 1878

Current Owner: Wynn Stallcop
Relationship to 1989 Owner: son
Current Operator: Pat McKeirnan
Relationship to Owner: neighbor

Changes in the Past 25 Years: Wynn retired from farming in 2009 after 24 years.
Additional Information: The original barn and farm shop are still used for storage.
Contact: Wynn Stallcop, 957 Kirby-Mayview Rd., Pomeroy, WA 99347

The Travis Farm, est. 1876

Current Owner: Sandra Lynn Travis
Relationship to 1989 Owner: daughter
Current Operator: Sandra Travis
Relationship to Owner: same

Changes in the Past 25 Years: Most of the land is timberland. The few farmed acres have shifted to CRP.
Contact: Sandra L. Travis, 765 Clay St., Walla Walla, WA 99362
The Wilson/Kimble Farm, est. 1879

Current Owner: Doyle Kimble, Ilene Bushnell, and Jeremy Kimble
Relationship to 1989 Owner: Doyle and Ilene were owners in 1989.
Jeremy is the son of their brother, Erich.
Current Operator: Slaybaugh Bros: Rick, Dan, and Brian
Relationship to Owner: cousins

Non-Participating Farms

The following 11 farms in the Southeast Washington region did not participate in the 2014 project to reconnect with Washington’s Centennial Farms. This list notes the year the farm was established and the page it appears in the 1989 Centennial Farms book.

**Asotin County**
Ayers Ranch, est. 1878, p. 125
The Johnson Farm, est. 1880, p. 127

**Columbia County**
The Nowles Farm, est. 1872, p. 111
The Sterns Farm, est. 1882, p. 110
Turner Farms, est. 1884, p. 115
The Van Patten Farm, est. 1880, p. 112

**Garfield County**
The Crumpacker Family Farm, est. 1879, p. 122
The Hastings Farm, est. 1886, p. 119
L & M Ranch, Inc., est. 1877, p. 117
The Shawley Family Ltd. Partnership, est. 1873, p. 116
The Shelton Farm, est. 1885, p. 118
Whitman County is home to some of the most productive dryland wheat farms in the country and also to the greatest number of Washington’s Centennial Farms. Settlers arriving in the 1870s and 1880s quickly discovered the productivity of the Palouse, and its reputation as a major wheat-producing region was soon established.

Whitman County has been the nation’s top wheat producer every year since 1978, with production topping 30 million bushels in 2014, a relatively low-yielding year. Over the past 25 years, its wheat farms have gotten larger, changed their mix of crops, and adopted practices to reduce erosion and improve soil quality.

Response to Reconnecting with Washington’s Centennial Farms

Of the 82 Centennial Farms in Whitman County, 52 responded to the 2014 questionnaire. Of those, 48 continue to be owned by a descendant of the 1889 landowner. Whitman is home to 20 percent of the state’s Centennial Farms.

Wheat acreage expands

Wheat, and more wheat, is being grown in Whitman County. In 1989, wheat was harvested from 400,500 acres; in 2014, harvested acres topped 506,000, following recent record wheat prices. Meanwhile, barley production, with 44,000 acres harvested in 2014, is a quarter of its 1989 level. Overall, less acreage is being cropped: Enrollment in the Conservation Reserve Program in 2014 totaled 170,000 acres, or about 17 percent of the county’s cropland, compared to 19,000 acres enrolled in 1989.

You find these facts reflected in the county’s Centennial Farms. In 1989, both wheat and barley grew on every Centennial Farm. In 2014, less than half grow barley, and the favored pulse crops now include garbanzo beans, also known as chickpeas, as well as dry peas.
and lentils. Whitman County leads the nation in garbanzos, as consumers have developed a taste for hummus, a dip made from the mashed bean.

**Farm size unchanged or larger**
Most Centennial Farms in the county reported their farm size was the same or larger in 2014 than in 1989. Of those that reported growth, most have more than doubled in size. The median size of the 48 farms is just over 1,050 acres.

**Sustainability efforts increase**
Following intensive cultivation for more than 100 years, concerns about erosion and soil degradation on the steep slopes of the Palouse hills were already spurring changes in farm practices in 1989. The emphasis on resource conservation and environmental protection has only increased during the last 25 years. Several Centennial Farms said they have moved to less tillage or no-till and direct seed on their operations.

Alex McGregor, one of the owners of McGregor Land & Livestock Ranch, observed that the last 25 years have seen the biggest gains in productivity and stewardship since pioneers broke out the prairie with horse-drawn walking plows. “Together we’ve increased production 250 percent, reduced waterborne soil erosion 85 percent, reduced dust six-fold, and reduced stubble burning – once done on every acre – 22-fold.”

**Centennial Farms by the numbers: 1989 vs 2014**
- Of the 48 farms still in the family, 22 are owned by the same owners as in 1989. Eighteen have been passed on to a child, grandchild or cousin. Eight are owned by the 1989 owner and the next generation.
- Twenty-four farms list the current owner or one of the owners as the day-to-day operator of the farm, 13 list a child, grandchild or other family member, and 11 are operated by a neighbor, friend or other non-relative.
- Ten farms have smaller operations than in 1989 and eighteen are larger, with the average size growing from 1,924 acres in 1989 to 2,347 acres in 2014. Farm sizes in 1989 ranged from 120 to 34,000 acres, and in 2014, from 33 to 37,000 acres.
- About one-quarter of the Centennial Farms reported they lease their land. Several lease to the same neighbor or friend as in 1989.
- The median size of the farms operated by lessees is 360 acres; the median size for owner-operated farms is 1,271 acres.
- Virtually all of Whitman County’s Centennial Farms are still wheat farms, with one farm reporting its cropland is in CRP and another farm producing cattle and hay.
- In 1989, all 48 farms reported growing wheat and barley and 32 reported growing dry peas. In 2014, virtually all grow wheat – including seven that reported growing only wheat – but less than half grow barley and even fewer grow dry peas. A quarter of the farms grow garbanzo beans in 2014, a crop not mentioned in 1989.
- Almost one-third of the farms reported raising livestock, primarily cattle, in 1989. Only half as many do so in 2014.
- Only four of the responding Centennial Farms are no longer in the family. All are still farmed.

Comments from several Whitman County farms, including the John Jacob and Caroline Schlee Homestead, are featured in the Overview chapter.

Farm life is a wonderful way to live life and raise a family.
*Karolin Kaye Bailey, James Bailey, Inc. (Kelly and Shields Farms)*

Erosion has been greatly reduced, and in most cases eliminated, by leaving crop residue on top of the soil.
*Mary Ann Wigen, The Whealen Farm*
The Harriet Adams Farm, est. 1883

Current Owner: John and Mary K. Stelzer
Relationship to 1989 Owner: same
Current Operator: John Stelzer

Current Operator: Mike and Jennifer Larson
Relationship to Owner: niece and her husband

Overview of the farm listings

Each farm listing contains the information provided by Centennial Farm families in response to the WSDA questionnaire. Each listing is a 2014 snapshot of the farm’s ownership, family connections, size of operation, and crops and livestock produced. It often includes comments about changes in the last 25 years and, as much as possible, is in the voice of the respondent.

Each listing notes the page number for the farm’s profile in the 1989 book, Washington’s Centennial Farms – Yesterday and Today or its addendum, available on the WSDA website. A farm’s 2014 listing is best understood and appreciated when read with its 1989 profile, where you’ll find information on the farm’s establishment and its operation at the time of the state’s Centennial.

The booklet is organized alphabetically by farm name. Farms that did not respond are listed at the end of the chapter.
Changes in the Past 25 Years: Land was leased to and farmed by Mike Larson since 2011 because of my husband James Bailey's death in 2008.

Contact: Karolyn Kaye Bailey, 5671 Dewey Rd., Lamont, WA 99017

The John Bishop Farm, est. 1878

Current Owner: John D. and Judy Bishop, Malcom Burnett
Relationship to 1989 Owner: same, husband of Regina Bishop Burnett
Current Operator: Roger and Lyn Pennell
Relationship to Owner: neighbor

Changes in the Past 25 Years: The homestead has been cleaned up and all undesirable trees removed. The second house that the homesteader John A. Bishop built in the late 1800s is still used periodically.

Contact: John and Judy Bishop, 630 Valley Mall Pkwy., #156, East Wenatchee, WA 98802

The Daniel Boone Farm, est. 1879

Current Owner: Dan and Nancy Boone
Relationship to 1989 Owner: same
Current Operator: Daniel Michael Boone
Relationship to Owner: son

Changes in the Past 25 Years: Slightly larger, less tillage, slightly more crop diversification.

Contact: Asa W. Clark, 6093 Palouse-Albion Rd., Pullman, WA 99163
The Comegys Farm, est. 1878

Current Owner: April Downing Eriksen and Robert Goldsworthy
Relationship to 1989 Owner: Margaret Downing's daughter, Jean
Goldsworthy's son
Current Operator: Kye Eriksen
Relationship to Owner: Tracy and April Eriksen’s son

Changes in the Past 25 Years: Not much. We’re trying to preserve the land, buildings and our heritage, and we are really tied to the land. The original machine shop, bunkhouse and house (remodeled in 1952) still stand.

Additional Information: Harry Jr. is 100 years old and the last of the third generation. Land has been transferred to the fourth generation and it will stay in the family. Younger family members come back to the farm to help with the harvest and during the year to help with operations as they can. Bob is also an owner-operator of the Comegys Centennial Farm; his mother is a Comegys.

Contact: Eugenia Goldsworthy Jr., 5602 Ld Johnson Rd., Rosalia, WA 99170

Freels Heirs Farm, est. 1886

Current Owner: The Mary Freels Heirs: Larry Jerue; Kaye Clark; Judy Bonhod; Larry Mathison; Mark and Jan Tollett; Nancy, William, and Robert Peterson; M. Joanne Thorsell; Terry, Warren and Michael Jerue; Lynne Anderson
Relationship to 1989 Owner: Larry Jerue, Kaye, Judy, Larry Mathison, and Mark and Jan were owners in 1989. Nancy, William, Robert and M. Joanne are Muriel Peterson’s children. Terry, Warren, Michael and Lynne are Joe Jerue’s children.
Current Operator: Mark and Janice Tollett
Relationship to Owner: two of the owners

<table>
<thead>
<tr>
<th>Original Acres Retained</th>
<th>Acres Farmed</th>
<th>Acres Owned</th>
<th>Acres Operated</th>
<th>Crops or Livestock Raised</th>
</tr>
</thead>
</table>

Changes in the Past 25 Years: Not changed.

Additional Information: Mary Lee Tollett passed away in 2010. Phil Mathison sold his share of the farm to Mark and Janice. The farm is currently owned by grandchildren and great-grandchildren of Allison and Mary Freels.

Contact: Mark and Janice Tollett, 802 Jim Davis Rd., St. John, WA 99171

Grove Ranch, est. 1883

Current Owner: Vera Ruud, Roger Cox, Dianna Pewitt, Mary Lindsay, Jay Magnuson and Jack Lamberton
Relationship to 1989 Owner: two of the owners, and Thelma and Evelyn’s children
Current Operator: Chuck Jordan
Relationship to Owner: friend

Additional Information: Mary Lee Tollett passed away in 2010. Phil Mathison sold his share of the farm to Mark and Janice. The farm is currently owned by grandchildren and great-grandchildren of Allison and Mary Freels.

Contact: Mark and Janice Tollett, 802 Jim Davis Rd., St. John, WA 99171
Changes in the Past 25 Years: Consolidation of ownership. We have added raising oilseeds and garbanzos. More wildlife visits the farm and turkeys have been successfully introduced. One of the great, positive changes is the change in farming practices to direct seed. Direct seeding has reduced the soil loss from large amounts with significant water loss from the fields to negligible on both counts. Conrad (the original homesteader) would not recognize the farming methods used in direct seed. We have improved the variety of crops grown and have made the transition to direct seed with no loss in profitability.

Additional Information: Conrad "Coon" Schierman left Russia with approximately 200 Russian Germans because he was suffering religious persecution. He, his brothers and cousins were diligent Bible students and maintained an active religious life that centered around meditation, prayer and Bible study. The family maintains these family values today. In 2007, Jay Magnuson, Evelyn’s son, became an owner. In 2011, Jack Lamberton, Thelma’s son, became an owner. In 2012, Dianna Pewitt and Mary Lindsay, Evelyn’s daughters, became owners.

Contact: Roger Cox, P.O. Box 237, Endicott, WA 99125

---

The Harter Farm, est. 1875

Current Owner: Ed Harter Estate, Martin Marler
Relationship to 1989 Owner: estate of an owner, Jennie Marler’s son
Current Operator: Martin Marler
Relationship to Owner: one of the owners

Changes in the Past 25 Years: Not much. Only the original house still stands.

Additional Information: The portion of the Harter Farm owned by Janet Huber is farmed separately.

Contact: Martin Marler, P.O. Box 365, Colfax, WA 99111

---

Hill Ranch, est. 1877

This Centennial Farm is no longer owned by the Hill family. The farm left family ownership in 1995.

Is the Land Still Farmed? Yes, we sold it to a farmer who leases it to another farmer. We sold it because the agriculture economy was in the pits and we couldn't get big.

Contact: Gordon Hill, 3051 Clear Creek Rd., Palouse, WA 99161
The Hoffman Farm, est. 1882

Current Owner: Janet Huber, Bill and Dale Ross, JoAnn Ross Cunningham
Relationship to 1989 Owner: one of the owners, and children of Alice Ross
Current Operator: Mike and Don Nelson
Relationship to Owner: neighbors

Current Owner: Kile Farm Trust
Relationship to 1989 Owner: Lester Kile requested the farm go to the Kile Farm Trust when he passed away.
Current Operator: Jeannie Kile
Relationship to Owner: trustee

Contact: Jeannie Kile, 9719 W. Masters Ln., Cheney, WA 99004

The John Thomas Kile Farm est. 1881

Current Owner: Mr. and Mrs. Ronald John Kile
Relationship to 1989 Owner: same
Current Operator: Ronald J. Kile
Relationship to Owner: same
Changes in the Past 25 Years: Practicing mulch-till, direct seed farming.
Contact: Ronald Kile, 401 Squires Rd., Rosalia, WA 99170

The Laird/Hamilton Farm est. 1887

Current Owner: Clarence Hamilton and Vivian Harder
Relationship to 1989 Owner: son and daughter
Current Operator: Clarence Hamilton
Relationship to Owner: one of the owners

Changes in the Past 25 Years: From growing wheat and barley to CRP. Clarence's son, Steve, and daughter, Jodie Young, built homes and live on this farm. Additional Information: Edward passed away in 1997, so the farm was split between his children Vivian and Clarence.
Contact: Clarence Hamilton, 22851 Endicott Rd., Colfax, WA 99111

The Lemon Farm est. 1880

Current Owner: Jim Lemon and Lolita Lemon Sutton
Relationship to 1989 Owner: two of the owners
Current Operator: Alfred and Larry Schroetlin
Relationship to Owner: not related

Changes in the Past 25 Years: Most outbuildings and the house were removed due to age. All but 35 acres have been sold. We still have original homestead where the house once sat, and the original shop and storage building are still in use. Additional Information: We sold 228 acres in 2007 to longtime lessees. We kept 35 acres with the original homestead property and maintain it for family use today.
Contact: Jim Lemon, 914 S. Meadow St., Colfax, WA 99111

The Love Farm est. 1881

Current Owner: Wendell Love and Marilyn Cunningham
Relationship to 1989 Owner: same
Current Operator: Warren Neal
Relationship to Owner: friend

Changes in the Past 25 Years: Type of farming has changed to reduced tillage. The original house and shed still stand.
Contact: Warren Neal, 304 Lange Rd., Garfield, WA 99130

The Lyle Farm est. 1879

Current Owner: Scott J. and Robert J. Lyle
Relationship to 1989 Owner: grandsons
Current Operator: Scott and Robert Lyle
Relationship to Owner: same
### McGregor Land & Livestock Ranch  
**Current Owner:** McGregor Land and Livestock Company: Alex, Ian, Alyson, Robin, Katherine, Mary, Andrew, John Robert, Ethan, and Leah McGregor.  
**Relationship to 1989 Owner:** Alex was one of the three company owners in 1989. He, Mary, and Andrew are third generation descendants of one of the four founding McGregor brothers; Alyson, Robin, John Robert, Katherine and Ian are fourth generation descendants of another; as are Ethan and Leah, fifth generation.  
**Current Operator:** Dave Hannas and Alex McGregor  
**Relationship to Owner:** general manager and one of the owners

**Changes in the Past 25 Years:** Like other farm families, we’ve made big gains in productivity and stewardship, producing several 80-plus bushel crops in a 13-inch rainfall zone where 45 bushels was once an outstanding yield, while reducing tillage and making major gains in preservation of the topsoil. We’ve reseeded rangeland to boost long-term productivity. We’ve acquired some alfalfa and wheat ground from neighbors retiring from farming.

**Additional Information:** Three-quarters of the ranch is rangeland in the rugged canyons of the Channeled Scablands – wild, remote country where it takes as many as 40 acres to nourish each cow/calf pair. The remainder is wheat land and, in the Palouse River valley, a small area is devoted to raising irrigated alfalfa. Many of the buildings in the village of Hooper, which is part of the ranch, date back to pioneer days. In the last decade we have restored the historic brick general store and the ranch boarding house and upgraded several homes. We’re slowly renovating harvest cook shacks and sheep herder wagons and other heritage items. Being active on issues of importance to all of us in agriculture is a major priority of ours, as it is with many farm families. We devote a lot of energy to telling the story of production agriculture and the thousands of farm families who contribute to its success. Our business was recognized a few years ago by the Secretary of State as a “Centennial Company,” one of the oldest incorporated enterprises in the state.

The Westacott Farm, est. 1877, p. 171
The Enoch White Farm, est. 1882, p. 173
THIS PAGE INTENTIONALLY LEFT BLANK
Centennials Farms in Northeast Washington have some of the closest ties to each other. Of the 29 farms that participated in the 2014 project, all but two are still owned by the same family. And the two that have left family ownership are owned or operated by other Centennial Farms.

The farms are north, south and west of the city of Spokane, with the greatest concentration in southeast Spokane County, at the north end of the productive lands of the Palouse.

Wheat dominates the region’s farms
Though cattle and hay, as well as specialty crops like Kentucky bluegrass seed and canola, are produced on many of the region’s Centennial Farms, wheat is still the dominant crop. In 2014, Spokane County contributed 8.3 million bushels to the state’s 108 million bushel harvest.

Joe Schmitz, his grandson Brian Montgomery and son Dan Schmitz grow grains, peas, lentils and garbanzos on the Schmitz Farm in Spokane County.

As in other wheat-growing areas of the state, several farms report they have adopted direct-seeding, no-till or minimum-till practices over the past 25 years. In contrast, relatively few acres in this region are enrolled in the federal Conservation Reserve Program. Many said that equipment has been upgraded. Paul DaShiell, an owner and the operator of DaShiell, Inc., in Valleyford, said there’s lots of direct seeding done and efficient machinery equipped with GPS so there’s no overlap when fertilizer and chemicals are applied to fields. Mareci and Lonnie Green of Elden Felgenhauer Farms in Fairfield, noted
they now have electronic moisture instruments on the combine that
monitor the grain as it is harvested.

Farm operations are larger today
Like most Centennial Farms in this region, the Schmitz Farm is a
larger operation today than it was in 1989, as investments in
equipment are undertaken and conservation practices are adopted. “It
takes more land to remain viable these days,” said Jeanne Schmitz.
She is happy to report that her son and his family are close neighbors
and partners in the farm operation.

Farming is a family affair
Many farms highlighted the family aspect of their family farms.
Chris Holt, of the Adams/Holt Farm south of Fairfield, said his father
Gerald was active on the family farm through his last harvest time in
2013 until his passing early the
next year. Holt, who
heads up the USDA-
Farm Service
Agency office in
Ritzville, and his
brother, Kevin, a Tri
Cities attorney, both return seasonally and at harvest to work with
their brother, Randall, on the farm.

Julie Pittman and her sister Janice (who married brothers) carry on
the farm work with their cousin, and with Julie’s son and husband.
More than 200 friends and relatives attended a 2004 family and
neighborhood reunion at the Painter Farm, which served to point out
the important role of longtime farm families. “Those great-
grandparents served their country in many ways – by feeding others
through their crops and livestock, by serving on school and church
boards, as township assessors and as teachers,” she said.

Centennial Farms by the numbers: 1989 vs 2014
- Of the 27 farms still in the family, 13 are owned by the same
owners as in 1989. Ten have been passed on to a child or
grandchild. Two are owned by the 1989 owner and the next
generation, and two are owned by a niece or nephew.
- Twelve farms list a current owner as the day-to-day operator of the
farm, four list a child or grandchild as the operator, two a cousin,
with two listing shared responsibilities between the owner and a son
or a neighbor. Seven are operated by a non-relative, often another
Centennial Farm.
- More so than other regions, farm size has increased. Though nine
farms are smaller than in 1989, almost half of the farms are
operating more land than they did in 1989. The average size grew,
from 1,069 acres in 1989 to 1,372 acres in 2014. Farm sizes in 1989
ranged from 30 to 6,000 acres, and in 2014, from 14 to 5,342 acres.
- The top crops in 1989 on these farms across the region were wheat,
barley, and bluegrass seed. In 2014 the top crops were wheat, hay
and peas, with half as many growing barley and bluegrass as in
1989. Four farms grew canola and three grew garbanzos, neither of
which were listed as crops in 1989.
- Two responding farms are no longer owned by the same family, but,
both are still farmed and
have strong Centennial
Farm ties. Family
members still live on the
John Muhs Farm, and the
land is farmed by a
neighboring Centennial
Farm; The Kirk/Hudson
Farm was sold to the
owners of the Schmitz
Centennial Farm who are
related to an earlier owner
of the land.

Like all farmers, our parents worked very
hard through hard times, trying to make
a living in something they loved doing.
DUANE DAVEY, THE DAVEY FARM

Note: There were no Centennial Farms in Ferry or Pend Oreille counties.
The Adams/Holt Farm, est. 1881

Current Owner: Holt Land and Livestock LLC
Relationship to 1989 Owner: family farmland holding entity
Current Operator: Rock Creek Land Co.; Randall S. Holt, managing partner
Relationship to Owner: one of the owners

Wheat, barley, dry peas, lentils, hay, Angus-Hereford beef cattle

Changes in the Past 25 Years: Little has changed; the equipment, while newer in model, is still ‘old,’ the cows still love to test the design limits of a well-built fence, and the land, as well as the farm family atop it, endures.

Additional Information: Gerald Holt actively farmed into his 80s with his son, Randall, and with seasonal help from sons, Kevin, a Tri-Cities attorney, and Chris, a county executive director for the USDA Farm Service Agency. He fed cattle daily, drove the tractor and "supervised" his last harvest in 2013 prior to passing in early 2014.

Overview of the farm listings

Each farm listing contains the information provided by Centennial Farm families in response to the WSDA questionnaire. Each listing is a 2014 snapshot of the farm’s ownership, family connections, size of operation, and crops and livestock produced. It often includes comments about changes in the last 25 years and, as much as possible, is in the voice of the respondent.

Each listing notes the page number for the farm’s profile in the 1989 book, Washington’s Farms – Yesterday and Today, available on the WSDA website. A farm’s 2014 listing is best understood and appreciated when read with its 1989 profile, where you’ll find information on the farm’s establishment and its operation at the time of the state’s Centennial.

The chapter is organized alphabetically by county, and within the county, alphabetically by farm name. Farms that did not respond are listed at the end of the chapter.
**The Henry Beck Farm**, est. 1888

Current Owner: David and Kristi Beck  
Relationship to 1989 Owner: son and daughter-in-law  
Current Operator: David Beck  
Relationship to Owner: same

</tr>
</tbody>
</table>

**Changes in the Past 25 Years:** Change in crop rotations due to state-imposed no-burn regulations (bluegrass stubble). Lots of direct seeding done, efficient machinery equipped with GPS so fertilizer and chemicals are not overlapped.
Additional Information: Thomas is now 95, and Ardis is 90. Their daughter, Emma Garcia, is no longer part of Dashiell, Inc.
Contact: Paul Dashiell, 21311 S. Arnold Rd., Fairfield, WA 99012

The Davey Farm est. 1883

Current Owner: Duane Davey, Dwight Davey, Shirley Dunsmore, and David Banks
Relationship to 1989 Owner: Duane, Dwight and Shirley are Gordon Davey’s children; David is Lillian Litzenberger’s son.
Current Operator: Duane Davey
Relationship to Owner: one of the owners

Changes in the Past 25 Years: It was farmed with crawler tractors, mechanical equipment, flatbed trucks and now with large-wheel tractors, hydraulic equipment and semi-trucks. Rather than being farmed by our dad, we have it leased out. My parents always had cattle, which we kept until after our mother passed away. Now we raise a few cattle for ourselves.

Additional Information: We are the fourth generation to own the farm. Our father passed in 1995; our mother in 2001. Like all farmers, our parents worked very hard through hard times, trying to make a living in something they loved doing. My daughter, her husband and family live in our parents' farmhouse now.

Contact: Duane Davey, 17310 E. Washington Rd., Valleyford, WA 99036

The Doak Farm est. 1880

Current Owner: Erik E. Highberg
Relationship to 1989 Owner: grandson
Current Operator: Shawn Morrissey
Relationship to Owner: Lessee

Changes in the Past 25 Years: The size of operation has doubled, direct seeding has replaced conventional farming, GPS guidance systems are used extensively, electronic moisture instruments monitor grain from the combine.

Additional Information: In 1977, Elden formed Elden Felgenhauer Farms, a family limited partnership to include Elden, Elizabeth, and their three sons, Karl, Donald, and Neil, and their spouses. At that time the limited partnership became a landlord only, and was converted to an LLC in 2012. Marci Green, sixth generation descendant of Rufus and Cordelia Kegley, and her husband Lonnie are operators of our farm. Their two sons, Jordan and Derek, plan to join the operation after they finish school.

Contact: Marci and Lonnie Green, 12111 E. Rattlers Run Rd., Fairfield, WA 99012

**The Jack Felgenhauer Farm** est. 1878

Current Owner: George Hazard  
Relationship to 1989 Owner: same  
Current Operator: Dusty Eckhart  
Relationship to Owner: family friend/neighbor

Changes in the Past 25 Years: Wagon shed and hay barn blew down, Dad retired and leased the land to Dusty. I am in the process of purchasing the farm buildings and 20 acres from my dad.

Contact: Eric Hazard, 24512 N. Spotted Rd., Deer Park, WA 99006

**The Hecht Farm** est. 1877

Current Owner: Vernon Hecht, Kelly and Sherri Rhoads, Linda and Terry Anderson, and Darlene Claassen  
Relationship to 1989 Owner: same (Vernon), Sherri is Hughena House’s daughter and Linda and Darlene are Lois Claassen’s daughters.  
Current Operator: Ed and Pauline Larson  
Relationship to Owner: lessees
Changes in the Past 25 Years: Hughena House died March 26, 2012, and Lois Claassen died July 7, 2014. The farm, which totals just under 300 acres, is now divided as follows: Vernon Hecht, 100 acres; Kelly & Sherri Rhoads, 100 acres; Linda & Terry Anderson, 50 acres; Darlene Claassen, 50 acres. The house and barn are still standing but not in use.

Contact: Sherri and Kelly Rhoads, 1743 W. 11th Ave., Spokane, WA 99204

The Hyslop Farm est. 1880

Current Owner: Thomas and Catherine Hyslop Family Limited Partnership: Thomas Hyslop Trust, Catherine Hyslop, Mary Ann Hyslop McClure, Thomas Hyslop Jr., Robert C. Hyslop, William D. Hyslop, and seven grandchildren

Relationship to 1989 Owner: widow, children, grandchildren

Current Operator: Kurt Carstens

Relationship to Owner: lessee

Changes in the Past 25 Years: Farming is much more automated, and all is minimum-till; other than that, not much change. The big barn is on the Washington State Heritage Barn Register, and is still used. The original farmhouse and sheep barn are still used.

Additional Information: Our parents have instilled in their children a wonderful legacy in terms of the importance of agriculture. We are doing our best to instill that in our children.

Contact: Thomas Hyslop Jr., P.O. Box 13322, Spokane Valley, WA 99213

The Hans Johnson Farm est. 1883

Current Owner: Georgia Cross

Relationship to 1989 Owner: niece

Current Operator: Mahn Farms: Michael and Teresa Mahn

Changes in the Past 25 Years: Great renter! Good farmer as before, as were the renters before this!

Additional Information: I have the homestead paper issued to Grandfather and signed by President Harrison.

Contact: Georgia Cross, 15909 S. Marsh Rd., Rockford, WA 99030

The Keevy Farm est. 1880

Current Owner: Thomas R. and Merry B. Keevy

Relationship to 1989 Owner: same

Current Operator: Bruce Keevy

Relationship to Owner: son

Changes in the Past 25 Years: More modern equipment, same crops being raised. Two of the original barns are still in use.

Contact: Thomas Keevy, 24409 S. Cahill Rd., Spangle, WA 99031
The Kirk/Hudson Farm, est. 1888

This Centennial Farm is no longer owned by the Hudson family. The farm left family ownership in 2005.

Is the Land Still Farmed? Yes, Don Hudson passed away and neighbors Joe and Jeanne Schmitz purchased the homestead from Don’s son. The barn in its restored state is a lasting visible monument to the past history of the area and a tribute to Don Hudson who was immensely proud of it. The Schneiders, whom the Kirks bought the farm from in 1888, were blood relatives to the current owners, so the farm in one sense has come full circle back into the Schmitz family.

Contact: Jeanne Schmitz, 9020 E. Irving Rd., Rosalia, WA 99170

---

The Lynch/Rattray Farm, est. 1880

Current Owner: Lorraine E. Rattray
Relationship to 1989 Owner: co-owner, widow
Current Operator: Larry Rattray
Relationship to Owner: son

Changes in the Past 25 Years: Clarence passed in February 2000. Some land is leased for pasture and some is enrolled in CRP program.

Additional Information: Lorraine is 93 years old and her driving force is to remain on the homestead and in her house.

Contact: Larry D. Rattray, 49168 Lake Mary Ronan Rd., Proctor, MT 59929

---

The Muhs Homestead, est. 1888

Current Owner: Tammi Richards and Robert Losh
Relationship to 1989 Owner: children
Current Operator: Tammi Richards and Robert Losh
Relationship to Owner: same

Changes in the Past 25 Years: Olson Farms Ltd. owned 790 acres, plus another 480 acres owned by the operators when the corporation disbanded in 2000. The land was divided three ways between the 1989
owners Raymond Olson, David and Barbara Olson, and Laura Olson France. David and Barbara retained the Centennial Farm's original acreage.

Additional Information: Barb and Dave Olson live in the house rebuilt in the late 1800’s after the first house burnt. The original barn is now used for storage.

Contact: Barbara Olson, 35127 S. Chapman Rd., Fairfield, WA 99012

The Ostheller Farm, est. 1889

Current Owner: James Ostheller and Ethel Spielman Estate
Relationship to 1989 Owner: same
Current Operator: James and Neil Ostheller
Relationship to Owner: one of the owners and his brother

</tbody>
</table>

Changes in the Past 25 Years: It hasn’t changed much and the family is very proud of that fact. Farming equipment is getting larger, so the fences and gates have been enlarged or removed. A family and neighborhood reunion was held at the farm in 2004, with more than 200 attending. We dedicated a painting, by Dr. Nona Hengen, of the Painter family arriving here in 1882. Our farm was the subject of a Washington Wheat Growers Association video, and the barn was placed on the Heritage Barn Register in 2008.

Additional Information: At the 1989 Spokane County Centennial Farms celebration, our son, Justin Pittman, age 12, accepted the certificate with me. I remarked he would be the fifth generation we hoped would farm the Centennial ground. That hope became real after his college graduation and he returned to the farm, where he now lives and farms with us. Jeanne Painter passed away in 2004. Clarence Painter passed away in 1996.

Contact: Julie and Charles Pittmann, 1462 Waterman Rd., Rosalia, WA 99170
The Schmitz Farm, est. 1888

Current Owner: Joe and Jeanne Schmitz
Relationship to 1989 Owner: one of the owners and wife
Current Operator: Joe and Dan Schmitz
Relationship to Owner: same and son

</tr>
</tbody>
</table>

Changes in the Past 25 Years: The farm is a larger entity now than in 1989. Farm practices are more consolidated and refined and equipment has become bigger and more efficient. Joe and Dan have worked to ensure the sustainability of the farm and are being good stewards of the land. The farm utilizes conservation practices and strives to keep abreast of current cropping techniques and varieties. The farmhouse is currently undergoing restoration for use by another generation of family.

Additional Information: We are proud of the history of our farm and of each generation which has lovingly nurtured it. The legacy of caring for the Schmitz land continues to this day in son, Dan, who is fifth generation strong and likely will continue in grandson Brian, who at 16 has never wavered from his desire to join the farm. We now also own all of the 160 original acres of the Kirk/Hudson Centennial Farm ground except for the five acres that our son and daughter-in-law, Dan and Carissa, own. They possess a house and the original barn.

Contact: Joe and Jeanne Schmitz, 9020 E. Irving Rd., Rosalia, WA 99170

The Schoedel Farm, est. 1884

Current Owner: Gordon and Anne Schoedel
Relationship to 1989 Owner: same
Current Operator: Entman Farms
Relationship to Owner: neighbor

</tbody>
</table>

Changes in the Past 25 Years: Thankfully, not one bit! We keep the home, outbuildings, and property in good condition.

Additional Information: Willa E. Waitt gifted and transferred her half-interest in the farm to her sons, Maurice G. and Robert K., in 1991. Robert P. Waitt inherited his father’s (Robert W.) half-interest in the farm in 2005. Robert K. Waitt wrote a book, In the moccasin tracks of... The Waitt Family of Valley, Washington...1768-2008, Chronicles of the Life, Times, Memories, History and Assorted Yarns, as I Knew It. He printed it in 2008 and gave it to family members, the Chewelah Historical Museum, Colville Historical Society and Valley Historical Society. According to historical records, Centennial Farm founder George Waitt built a cabin in 1860 on the land that he eventually received under the Homestead Act. In his original water rights claim, Centennial Farm founder George Waitt stated he had been irrigating land since 1867 from the outlet creek from Waitts Lake.

Contact: Robert K. Waitt, 3815 E. Lake Sammamish Shore Ln. SE, Sammamish, WA 98075
Non-Participating Farms

The following 12 farms in the Northeast Washington region did not participate in the 2014 project to reconnect with Washington’s Centennial Farms. This list notes the year the farm was established and the page it appears in the 1989 Centennial Farms book.

**Spokane County**
The Bliesner Farm, est. 1887, p. 181
The Brischle Farm, est. 1881, p. 196
The Claus Carstens Farm, est. 1884, p. 192
The Eickmeyer Farm, est. 1884, p. 194
The Jarvis Farm, est. 1886, p. 189
The Judkins Farm, est. 1880, p. 180
The Leitz Farm, est. 1889, p. 182
The Muehle/Coldsnow Farm, est. 1888, p. 197
The Peterson/Ostby Farm, est. 1883, p. 197
The Smallwood/Keno Farm, est. 1879, p. 180
The Suksdorf Farm, est. 1881, p. 185

**Stevens County**
The Hidden Meadows, est. 1889, p. 176
Central Washington, a region that cuts a vertical swath across the center of the state, encompasses a wide range of farming conditions and diverse types of agriculture. It includes smaller, labor-intensive fruit orchards, large acreage for wheat fields and beef grazing, as well as irrigated hay and field crops and dairy operations.

Because large-scale irrigation didn’t come to the region until after statehood, Centennial Farms tell just part of the story of Central Washington agriculture over the past 25 years. Most Centennial Farms are in the Kittitas and Klickitat valleys, although the oldest, established in 1870, is along Cowiche Creek in Yakima County.

Early improvements on many of the farms included digging irrigation ditches. The irrigation projects of the last century made the region one of the most productive in the country – especially for tree fruit and specialty crops like hops, mint and grapes.

Cattle country mixes with an assortment of crops

Centennial farms in Klickitat County are large cattle and wheat operations, working an average of more than 3,500 acres. The Fahlenkamp brothers grew up with cattle on their father’s farm near Goldendale, and in 2014 purchased the Hornibrook Farm from relatives on their mother’s side. Previously solely a wheat farm, cattle were added to the operation soon after the purchase.

### Response to Reconnecting with Washington’s Centennial Farms

Of the 44 Centennial Farms in this region, 30 responded to the 2014 questionnaire. Of those, 24 continue to be owned by a descendant of the 1889 landowner.

Brothers Keith, Brad, Greg and Adam Fahlenkamp are proud to be the fifth generation owners of the homestead land of the Hornibrook Farm, just south of Goldendale in Klickitat County.
Farmers here echo wheat growers in other parts of the state on changes over the last 25 years. Both the Powers Farm and Doubletree Ranch say they’ve gone to direct seed, no-till farming with larger machinery and fewer man-hours. More farms report growing alfalfa while very few grow barley now. The Kelley Ranch is no longer raising crops, “just livestock – and windmills.”

Kittitas County is known for its hay and all seven of its Centennial Farms are hay growers. Several grow timothy hay, which is mostly exported to Japan. Compared to 1989, fewer of these farms are raising cattle and none report growing corn. The lone dairy farm sold most of its acreage and is now only growing hay.

Fruit accounts for half of the value of Yakima County’s farm income, and an even higher percentage of the farm income in Klickitat, Okanogan and Chelan counties. Though few Centennial Farms primarily grow fruit, changes over the last 25 years at Rowe Farms in Yakima County typify changes in the state’s tree fruit industry. Their apple orchards produce not only Red and Golden Delicious apples but new varieties like Honeycrisp and Pink Lady. About 10 percent of their apples and cherries are certified organic.

**Wildfires demand farmers’ resilience**

Fire consumed thousands of acres of Northcentral Washington forest and farmland in 2014. Farmers had to search for cattle up smoky backroads, and crews shifted from farm work to fire-fighting. Bernard Thurlow, in his 75 years on the family’s Centennial Farm, said he had never seen anything like the Carlton Complex fire, the largest wildfire in the state’s recorded history, which touched but did no major harm to the farm.

**Centennial Farms by the numbers: 1989 vs 2014**

- Of the 24 farms still in the family, ten are owned by the same owners as in 1989, seven have been passed on to children or great-grandchildren. Three are owned by the 1989 owner and the next generation, and four are owned by a niece, nephew or cousin.
- Seventeen farms list the current owner as the day-to-day operator of the farm, two list a child or grandchild as the operator, one the owner and a grandchild, and four a non-relative.
- The size of the 24 farm operations varies widely. The average size in 1989 was 1,556 acres, and in 2014, 1,818 acres. Farm sizes in 1989 ranged from six to 7,100 acres, and in 2014, from two to 8,400 acres.
- As in 1989, the crops or livestock raised most frequently in 2014 on these farms across the region are hay and cattle, with wheat a major crop in Klickitat and Benton counties.
- Of the six farms no longer owned by Centennial Farm families, three are still working farms.

Several farms in this region are featured in the *Overview*, including Rowe Farms and the Thurlow Farm.
BENTON COUNTY

The Hans Smith Family Farm, est. 1885

Current Owner: Wayne H. Smith
Relationship to 1989 Owner: same
Current Operator: Robert M. Hamilton
Relationship to Owner: renter

Changes in the Past 25 Years: The Hans Smith Family Farm has been leased to Robert Hamilton since 1998, when old age and the effects of a stroke meant I could no longer farm. The farm use has remained the same.

Correction to 1989 Book: Wayne Smith’s father Henry co-owned the farm with his brother, Elmer, 1973-1986.

Contact: Wayne Smith, 186 N. Waverly Pl., Kennewick, WA 99336

CHelan COUNTY

The Bart Brender Farm, est. 1881

This Centennial Farm is no longer owned by the Bart Brender family. The farm left family ownership in May 2006.

Is the Land Still Farmed? Yes, Keith Archibald still farms the land as a pear orchard.

Contact: Richard Brender, 271 N. Hanford Ave., East Wenatchee, WA 98802

The Carl Brender Farm, est. 1881

This Centennial Farm is no longer owned by the Carl Brender family. The farm left family ownership in 1993.

Is the Land Still Farmed? No.

Contact: Richard Brender, 271 N. Hanford Ave., East Wenatchee, WA 98802

The Melvin Brender Farm, est. 1881

This Centennial Farm is no longer owned by the Melvin Brender family. The farm left family ownership in November 2004.

Is the Land Still Farmed? Yes. James Willems purchased the farm in 2004, cut down the orchard and subdivided the 40 acres into four parcels. Two of the parcels were sold to Seattle restaurateur Ludgar Szmania, who planted a couple of acres of grapes.

Contact: Richard Brender, 271 N. Hanford Ave., East Wenatchee, WA 98802

Overview of the farm listings

Each farm listing contains the information provided by Centennial Farm families in response to the WSDA questionnaire. Each listing is a 2014 snapshot of the farm’s ownership, family connections, size of operation, and crops and livestock produced. It often includes comments about changes in the last 25 years and, as much as possible, is in the voice of the respondent.

Each listing notes the page number for the farm’s profile in the 1989 book, Washington’s Centennial Farms – Yesterday and Today, available on the WSDA website. A farm’s 2014 listing is best understood and appreciated when read with its 1989 profile, where you’ll find information on the farm’s establishment and its operation at the time of the state’s Centennial.

The booklet is organized alphabetically by county, and within the county, alphabetically by farm name. Farms that did not respond are listed at the end of the chapter.
**Kittitas County**

**The Clerf Farm**, est. 1887

**Current Owner:** Clerf Family LLC: John S. and Jan Clerf and children

**Relationship to 1989 Owner:** son, daughter-in-law, grandchildren

**Current Operator:** Jack Clerf

**Relationship to Owner:** one of the owners

**Crops or Livestock Raised:**
- Hay, grain, corn
- Timothy hay, alfalfa, Sudan grass, wheat seed

**Changes in the Past 25 Years:** We no longer raise any cattle.

**Additional Information:** Ownership of the farm passed from John R. and Doris Clerf in 2000 to their son, John S. (Jack), and his wife Jan. The Clerf Family LLC was formed in 2007 and includes Jack and Jan’s children. The original horse barn is still standing and used for storage.

**Contact:** Jack Clerf, P.O. Box 635, Kittitas, WA 98934

---

**The Henry Clerf Farm**, est. 1885

**Current Owner:** Francis E. (Bud) and Jeannine Clerf

**Relationship to 1989 Owner:** same

**Current Operator:** Pat and Linda Clerf

**Relationship to Owner:** son and daughter-in-law

**Crops or Livestock Raised:**
- Timothy and alfalfa hay, grain, sweet corn, silage corn, hogs, cow/calf operation
- Timothy hay, barley, wheat, cow/calf operation, hogs

**Changes in the Past 25 Years:** Less wheat or small grains, less sweet corn, fewer cattle. Three barns and sheds, about 100 years old, are now used for storage of odds and ends.

**Additional Information:** Dorothy Sparks died Feb. 27, 2005, and her share of the farm passed to Roger and Rita Sparks. Their son, Scott Sparks, became owner of 40 acres of the original parcel in 2008. Roger retired from farming in 2014.

**Contact:** Roger Sparks, 4820 Cove Rd., Ellensburg, WA 98926

---

**The Frederick Farm**, est. 1875

**Current Owner:** Roger and Rita Sparks, Scott and Dawn Sparks

**Relationship to 1989 Owner:** two of the owners, their son and daughter-in-law

**Current Operator:** Mountain View Ranches

**Relationship to Owner:** renter

*Changes in the Past 25 Years:* Changed from pasture to hay production.  
*Additional Information:* Richard (Dick) Hutchinson passed away in May 2014.  
*Contact:* Reta Hutchinson, P.O. Box 77, Thorp, WA 98946

**The Prater Farm**, est. 1879

This Centennial Farm is no longer owned by the Prater family. With the passing of JoAnn S. Prater, the property was sold by the estate in 2001.  
*Is the Land Still Farmed?* Yes, Thomas and Kathleen Brunson leased the 120-acre Prater Farm from JoAnn Prater from 1988 until 2001. In 2001 the Brunsons purchased 50 acres and 3 Bar G Ranch, owned by Robert Gregerich, purchased 70 acres. Both owners continue to farm the Prater Farm land, as well as adjacent and nearby farms. The whole irrigation system has been changed but farming continues as in the past.  
*Contact:* Thomas Brunson, 1871 S. Thorp Hwy, Ellensburg, WA 98926

Although there are strong ties to the land, the last 25 years of increasingly restrictive and unwise policies and regulations, over which we have little control, have been disheartening.  
*Contact:* Lila Hanson, 1302 Swauk Prairie Rd., Cle Elum, WA 98922

**The Hutchinson Ranch**, est. 1887

*Current Owner:* Reta M. Hutchinson  
*Relationship to 1989 Owner:* same and widow  
*Current Operator:* Reta and Dusty Hutchinson  
*Relationship to Owner:* same and grandson

Klickitat County

The Brokaw Farm, est. 1877

This Centennial Farm is no longer owned by the Brokaw family. The farm left family ownership in 2007.
Is the Land Still Farmed? Yes. 82 acres of the original homestead parcel, including the Brokaw home, is now owned by David Ochsner and Mary Wilson, who purchased the property in 2013. David and Mary operate Half Creek Farm, and raise goats, sheep and poultry. The surrounding land is also still farmed.
Contact: Mary Wilson, P.O. Box 73, Bickleton, WA 99322

Doubletree Ranch aka Niels Brown Ranch, est. 1878

Current Owner: Ellwood and Janet Brown, Neal Brown
Relationship to 1989 Owner: same
Current Operator: Neal Brown
Relationship to Owner: one of the owners, Ellwood and Janet’s son

Additional Information: The farm was owned from 1990 to 1995 by C. Alvin and Virginia Eshelman’s nephew, Merwyn Eshelman. His cousins, Charles and Robert, became owners in 1995.
Contact: Charles Eshelman, 323 Erickson Rd., Centerville, WA 98613

Page 6 - Central Washington

Washington’s Centennial Farms, 25 Years Later
The Hornibrook Farm, est. 1888

Current Owner: Keith, Adam, Greg, and Brad Fahlenkamp
Relationship to 1989 Owner: great-grandchildren
Current Operator: Fahlenkamp Brothers Ranch LLC: Keith, Adam, Greg, and Brad Fahlenkamp
Relationship to Owner: same

Changes in the Past 25 Years: William (Bill) Hornibrook operated the farm until 2013 when the operation was transferred to his nephews Keith, Adam, Greg, and Brad Fahlenkamp.
Additional Information: My brothers and I completed the purchase of the farm on Oct. 7, 2014. Along with farmland owned by our father, Walter Fahlenkamp, the total operation spans more than 3,000 acres. We are proud to be the fifth generation owners of the homestead and are happy that the land will continue to be owned and operated by our family. The original house and barn are still in use.
Contact: Keith Fahlenkamp, 702 Cunliff Rd., Goldendale, WA 98620

Kelley Ranch, est. 1884

Current Owner: Michael and Dixie Kelley
Relationship to 1989 Owner: same
Current Operator: Mike Kelley
Relationship to Owner: same

Changes in the Past 25 Years: No farming done, just livestock -- and windmills.
Additional Information: My great-grandparents were original Klickitat County pioneers.
Contact: Mike Kelley, 49 Kelley Ln., Roosevelt, WA 99356

The Norris Farm, est. 1878

Current Owner: Marilyn Enwards
Relationship to 1989 Owner: daughter
Current Operator: Mike Thiele
Relationship to Owner: son-in-law

Changes in the Past 25 Years: When Howard Norris passed away, the property was divided between his children, Marilyn Enwards and Marvin Norris. Marilyn lives on the original homestead.
Contact: Marilyn Enwards, 155 Bickleton Hwy., Goldendale, WA 98620

The Powers Farm, est. 1880

Current Owner: Powers Ranches, Inc.: Lance and Susan Powers
Relationship to 1989 Owner: son
Current Operator: Lance Powers
Relationship to Owner: same

Changes in the Past 25 Years: When Howard Norris passed away, the property was divided between his children, Marilyn Enwards and Marvin Norris. Marilyn lives on the original homestead.
Contact: Marilyn Enwards, 155 Bickleton Hwy., Goldendale, WA 98620

Contact: Lance and Susan Powers, 26 Ward Rd., Roosevelt, WA 99356

The Richardson Farm, est. 1875

Current Owner: Richard Lefever
Relationship to 1989 Owner: son
Current Operator: Richard Lefever
Relationship to Owner: same

<table>
<thead>

</thead>
</table>

Changes in the Past 25 Years: Added 115 acres of land.

Additional Information: My wife Marilyn Sarsfield had been a part owner with me since the 1970s until Oct. 11, 2012, when she was killed in a tragic car accident, leaving me as the sole owner.

Contact: Anthony "Tony" Sarsfield, 669 Dalles Mountain Rd., Centerville, WA 98613

Sky Mountain Ranch, est. 1889

Current Owner: Tom Nelson and Barbara Nelson Estabrook
Relationship to 1989 Owner: nephew and niece
Current Operator: Tom Nelson
Relationship to Owner: one of the owners

Additional Information: All of the original buildings are still in use.

Contact: Tom Nelson, 1856 Churchill Terrace, West Linn, OR 97068

Okanogan County

The Davis Ranch, est. 1888

Current Owner: Charlie and Marlenia Fitzgerald, Georgene Fitzgerald, Deb and Joe Poulin
Relationship to 1989 Owner: Georgene and her son, Charlie, were two of the owners in 1989. Deb is Helen’s granddaughter.
Relationship to Owner: same

Changes in the Past 25 Years: The apple orchard went from 15 acres to less than a half acre. Most of the rangeland is still used for cattle grazing. Five acres has been used for a vegetable truck farm the last 30 years.
Additional Information: This last summer all the buildings survived the Carlton Complex fire. The area had never burned since our family has been here and it was very destructive to the environment. We have separate operations and ownership, but the property has been continuously farmed and owned by family members since 1888. Georgene is the only surviving sister, actively farming 23 acres at age 78. Charlie and Marlenia live in the original ranch house and have 44 acres that is farmed and used for grazing. Helen’s daughter, Mary Lou, lives next door but is not a property owner. Deb and Joe just built a new house on the ranch, right next to Mary Lou. They lease out 423 acres for cattle grazing.

Contact: Charles Fitzgerald, 11 Davis Canyon Rd., Brewster, WA 98812

The Lenton Place, est. 1884

Current Owner: Hazel Lenton Dezellem and Family
Relationship to 1989 Owner: same
Current Operator: Lessees
Relationship to Owner: no relation

Changes in the Past 25 Years: We don't have our own cattle at this time. Both of the original cabins are still standing, but are deteriorating.

Contact: Hazel Dezellem, P.O. Box 368, Oroville, WA 98844

The Thurlow Farm, est. 1886

Current Owner: Dr. and Mrs. Bernard M. Thurlow and family
Relationship to 1989 Owner: same
Current Operator: Dr. and Mrs. Bernard M. Thurlow
Relationship to Owner: two of the owners

Changes in the Past 25 Years: We have lost family members and added grandchildren. In 75 years, Bernard has never seen a fire like the Carlton complex we just experienced. Thanks to firefighters, our family, homes and cattle are safe so far. We lost hay and fences and irrigation. The cost of everything is very high.

Additional Information: We appreciate having had the experience in the history of the ranch/farm, and the Methow Valley, and the State of Washington. The people, animals, stories, politics, and economics have been interesting. We look forward to the future.

Contact: Bernard and Dianne Thurlow, 52 Thurlow Rd., Twisp, WA 98856

Yakima County

The Alderson Farm, est. 1887

This Centennial Farm is no longer owned by the Alderson family. The farm left family ownership in 1998.

Is the Land Still Farmed?: No. Sold to Enterprise for Progress in the Community (EPIC). The farming operation stopped when the property was sold.

Contact: Richard Alderson, 3007 Powerhouse Rd., Yakima, WA 98903
The Dunn Farm est. 1876

Current Owner: Dean Dunn
Relationship to 1989 Owner: cousin
Current Operator: Dean Dunn
Relationship to Owner: same

<table>

<tr>
<th>Original Acres Retained</th>
<th>Acres</th>
<th>Crops or Livestock Raised</th>
</tr>
</thead>
<tbody>
<tr>
<td>26</td>
<td>1</td>
<td>28</td>
</tr>
</tbody>
</table>

Changes in the Past 25 Years: Equipment upgrades and lease expansion.

Additional Information: Dean Dunn is the current owner of what may be the last branch of Capt. Robert Dunn’s descendants to farm part of the original Centennial Farm land. The 26 acres of Centennial Farm land owned by Paul C. Dunn in 1989 was sold after Paul died in 1991. Other acreage has also passed out of family ownership. Dean’s Centennial Farm land is a small corner of the original Desert Land Act acreage that was part of land passed on to his grandfather, Duncan, and his father Clyde.

While Paul’s land was in fruit trees, Dean’s family has carried on the cattle-raising tradition started by Capt. Dunn in the early 1900s. Dean’s grandfather and Paul’s father were the two sons of Robert and Annie Dunn who, along with their sisters, inherited Dunn Farm land.

Contact: Schuyler Dunn, 5751 Yakima Valley Hwy, Wapato, WA 98951

The Eschbach Farm est. 1883

Current Owner: Greg and MaryLynne Eschbach Brewington
Relationship to 1989 Owner: niece and her husband
Current Operator: MaryLynne Brewington
Relationship to Owner: same

<table>

</tbody>
</table>

Changes in the Past 25 Years: We moved to Spokane to be near our son and his family. All those family members of the last generation are gone. We lost three acres in boundary line adjustments.

Additional Information: The amount of acreage we have barely sustains itself some years. The question of water rights has been front and center of our operation. We have been forced by many agencies to remove our dams on the creek. We have moved our water rights to the Tieton River and are receiving our water by pipeline via Yakima-Tieton irrigation. In theory, it will cost what our pumps cost. In practice, that is yet to be seen. Government, through its many arms, has taken over the water on our ranch.

Contact: Eugene W. Stevenson, 913 E. Bonnie Lynn Ln., Colbert, WA 99005

Non-Participating Farms

The following 14 farms in the Central Washington region did not participate in the 2014 project to reconnect with Washington’s Centennial Farms. This list notes the year the farm was established and the page it appears in the 1989 Centennial Farms book.

Yakima County
The McDonald Farm, est. 1889, p. 201
THIS PAGE INTENTIONALLY LEFT BLANK
About 60 percent of the state’s wheat acreage is an area where precipitation averages less than 12 inches a year. The Centennial Farms in the East Central region are representative of the dryland farms in this area. They operate in sharp contrast to the farms of the region’s Columbia Basin Project where, starting in the 1950s, irrigation water transformed half a million acres of desert plateau into highly productive farmland, with Grant, Adams and Franklin counties now among the top agricultural counties in the state.

As a group, these 37 farms are the youngest of the state’s Centennial Farms, with all but one established in the 1880s as settlers and the railroad moved into the area. Just over half are in Lincoln County.

They are also the largest of the state’s Centennial Farms. Many of the region’s farms have expanded in size over the last 25 years and most of these have more than doubled.

More so than with other wheat-growing Centennial Farms, the farms in this region are operated by their owners, and it’s often a family affair to get the seasonal work done. Robert Mielke, an owner-operator of the 14,000-acre Mielke Brothers, Inc., in Lincoln County, said his four children return to the farm regularly to help with harvest, haying, branding and gathering cattle.

**Dryland Farming’s Unique Challenges**

These five counties accounted for 36 percent of the state’s wheat production in 2014, harvesting 39.1 million bushels of wheat. Lincoln County produced almost 40 percent of the region’s wheat.

In this driest of the state’s dryland farming regions, the land is susceptible to both water and wind erosion. Wheat production is never a sure thing, prices are subject to global forces and equipment is a major investment. To make the most of the little precipitation the land receives and to better conserve the soil, some, like the Gaffney Farm in Lincoln County, have changed to direct-seeding.
and a crop rotation system. Jerry Sheffels, an owner of the Sheffels Farm in Lincoln County, said his farm changed its system twice since 1989, and now uses no-till direct seed.

Most of the Centennial farms also reported growing fewer types of crops in 2014 than 1989. All but one of the Centennial Farms in Adams and Douglas counties reported only wheat or cattle as the crop or livestock produced in 2014. Most Lincoln County farms reported both wheat and barley, with many mixed crop and livestock operations.

Three Centennial Farms reported all their cropland was enrolled in the federal Conservation Reserve Program, which has played a major role in the region. Since CRP’s inception in 1986, Douglas and Adams counties have accounted for the greatest number of enrolled acres in the state. In 2014, 718,000 enrolled acres – just over half of the state’s total – were in this five-county region.

Centennial Farms also report increased use of modern equipment with GPS, self-steering tractors and combines. The cost of such equipment is high, leading to larger farm operations to gain economies of scale.

**Centennial Farms by the numbers: 1989 vs 2014**

- Of the 37 farms still in the family, 15 are owned by the same owners as in 1989, 17 have been passed on to a child or grandchild, and five are owned by the 1989 owner and the next generation.
- Twenty-seven farms list the current owner as the day-to-day operator of the farm, two list a child or grandchild as the operator, three a cousin and five are operated by a non-relative.
- The general trend in farm size is larger, with the average number of acres operated almost doubling, from 2,594 acres in 1989 to 4,941 acres in 2014.
- The size of farm operations in 1989 ranged from 160 to 10,000 acres, and in 2014, from 320 to 80,000 acres.
- As in 1989, the top crops in 2014 are wheat, barley and beef cattle, though fewer farms listed barley and cattle.
- Five farms are no longer owned by their Centennial Farm families with one sold to another Centennial Farm. All are still in agriculture.

**Changes in the Past 25 Years:** Mary Edna Dooley Victor died in 1997 and her son Gerry died in 2014.

**Additional Information:** The original barn, machine shed, and spring house were built in 1908 and cement added when the house was remodeled and electricity added in the early 1950s. Along with an artesian well there is an older bunkhouse and a pole building horse shed. The buildings are made with coast lumber, tongue and groove, and can’t be insured for anywhere near their true value.

**Heinemann Family Farm** est. 1888  Page 245

*Current Owner:* Gary Heinemann and Beverly Scherr, Russell Heinemann, Dorothy Schoesler Disclaimer Trust  
*Relationship to 1989 Owner:* Gary and Beverly are Wilmerd and Helen’s children; Russell is Edward and Arlene’s son. Dorothy was an owner in 1989.  
*Current Operator:* Mark Schoesler  
*Relationship to Owner:* Dorothy Schoesler’s son

**Overview of the farm listings**

Each farm listing contains the information provided by Centennial Farm families in response to the WSDA questionnaire. Each listing is a 2014 snapshot of the farm’s ownership, family connections, size of operation, and crops and livestock produced. It often includes comments about changes in the last 25 years and, as much as possible, is in the voice of the respondent.

Each listing notes the page number for the farm’s profile in the 1989 book, *Washington’s Centennial Farms – Yesterday and Today* or its addendum, available on the WSDA website. A farm’s 2014 listing is best understood and appreciated when read with its 1989 profile, where you’ll find information on the farm’s establishment and its operation at the time of the state’s Centennial.

The booklet is organized alphabetically by county, and within the county, alphabetically by farm name. Farms that did not respond are listed at the end of the chapter.
The Jirava Farm, est. 1883  
Page 244

Current Owner: Ron Jirava  
Relationship to 1989 Owner: one of the owners  
Current Operator: Ron Jirava  
Relationship to Owner: same

Additional Information: The 100+ year-old home, barn and outbuilding are still in use.

Contact: Brent Heinemann, 938 Maple Valley Rd. S.W., Olympia, WA 98512

The Kelsey Farm, est. 1889  
Page 247

Current Owner: Janice Kelsey  
Relationship to 1989 Owner: widow of Dennis Kelsey  
Current Operator: Travis Schuh  
Relationship to Owner: no relation

R.P. Smith Homestead, est. 1887  
Page 246

This Centennial Farm is no longer owned by the Smith family. The farm left family ownership with the sale of two parcels in 1994 and 1999.

Is the Land Still Farmed? Yes. When W. Alex Smith II died in 1994, his son, Warren Alex Smith III, and daughter, Janet Smith Greenwalt, inherited the farm. Janet said her dad Alex always said “If anything happens and the farm needs new owners, find someone who’s small and help them get a start.” That is what Warren and Janet did. Warren sold his half of the estate to Mike Gust in 1994. In 1999, Janet sold him her half.

Contact: Mike Gust, 50 N. Thiel Rd., Ritzville, WA 99169

Douglas County

The Augst Farm, est. 1888  
Page A-3

Current Owner: KSL Woodside Farms, LLC: siblings Kathryn, Scott and Lori Woodside; JnM LLC: Mary Jacobsen and husband Bill McKeague  
Relationship to 1989 Owner: The Woodsides are children of Loren Woodside. Mary Jacobsen is a daughter of Adelbert (Del) Jacobsen who farmed the Augst farm 1987-2008, and is not a family member.  
Current Operator: Scott Woodside & Mary Jacobsen  
Relationship to Owner: two of the owners

---

Changes in the Past 25 Years: In 1989, the homestead was farmed by Dennis and Craig Kelsey, sons of Arlyne Kelsey, and consisted of 1,520 acres. In 2006, Craig and his son started doing most of the farming. After Dennis died in 2008, the land was divided between Craig and his family, and Janice, Dennis's widow. Janice's property includes the original parcel.

Additional Information: There has been a Washington State University research site on 20 acres since 1996.

Contact: Ron Jirava, 1551 N. Dewald Rd., Ritzville, WA 99169
Changes in the Past 25 Years: The homestead house was rehabilitated in 2010. The house, chicken coop, grainery, machine shed, shop and barn are all still standing and all but the chicken coop are still in use. The barn was listed in the Washington State Heritage Barn Register on Oct. 24, 2013.

Additional Information: Viola Painter died in 2001, leaving her third of the farm to her daughter Eileen Parten, who, in 2005, sold her share to the Jacobson family. Loren Woodside died in 2012, leaving his two-thirds of the farm to his children, Kathryn, Scott and Lori Woodside.

Contact: Scott Woodside, 6802 W. Arrowhead Ave., Kennewick, WA 99336

The Hensel Farm est. 1887

Current Owner: James F. and Chase Hensel
Relationship to 1989 Owner: sons
Current Operator: Lynn and Gary Polson
Relationship to Owner: no relation

Changes in the Past 25 Years: The farm has not changed at all. The original house is still occupied. The granary and shop are still standing.

Additional Information: Around 1982, Gloria and Joe Bourton bought the Rice and Cronin shares of the farm.

Contact: Gloria Bourton, 15 Goldy Ln., Orondo, WA 98843

The McLean Ranch est. 1887

Current Owner: Alex and Bonita McLean
Relationship to 1989 Owner: same
Current Operator: Alex and Bonita McLean
Relationship to Owner: same

Changes in the Past 25 Years: Went into CRP. The pasture is leased for cattle in the summer and the hay ground is harvested.

Additional Information: None of the original buildings survive. Several from the late 1930s are still in use.

Contact: Alex McLean, 30 Pershing St., Wenatchee, WA 98801

John and Augusta Johnson Farm est. 1889

Current Owner: Gloria Tober Bourton
Relationship to 1989 Owner: one of the owners
Current Operator: Hubert Bourton
Relationship to Owner: cousin

Changes in the Past 25 Years: Crops have improved.

Additional Information: Around 1982, Gloria and Joe Bourton bought the Rice and Cronin shares of the farm.

Contact: Gloria Bourton, 15 Goldy Ln., Orondo, WA 98843

The McLean Ranch est. 1887

Current Owner: Alex and Bonita McLean
Relationship to 1989 Owner: same
Current Operator: Alex and Bonita McLean
Relationship to Owner: same

Changes in the Past 25 Years: Went into CRP. The pasture is leased for cattle in the summer and the hay ground is harvested.

Additional Information: None of the original buildings survive. Several from the late 1930s are still in use.

Contact: Alex McLean, 30 Pershing St., Wenatchee, WA 98801

Changes in the Past 25 Years: My mother died in 2003 and father died in 2008. We updated irrigation systems, added a potato storage building, no longer have cattle and have acquired a dryland wheat farm ineast
Franklin County. I'm still farming every day!

**Additional Information:** My parents were great role models as farmers, land stewards, visionaries, and I hope to pass that on to my four sons and two daughters. All of our kids have jobs but they come back to the farm to help with harvest and other farm-related jobs. They know how important and interesting the history of this family is and I hope they will continue this way of life for the next generations.

**Correction to 1989 Book:** One hundred acres of the original parcel were retained in 1989.

**Contact:** Manton or Patricia Bailie, P.O. Box 267, Mesa, WA 99343

---

**The Harder Farm**

**Current Owner:** Wm. Geo., Vivian, William Jr., Eric Max, Nicole and T.J. Harder

**Relationship to 1989 Owner:** Wm. Geo, his wife Vivian, their son, William Jr., and grandson, Eric Max (son of Eric), were owners in 1989. Nicole and T.J. are Eric Max’s siblings.

**Current Operator:** Wm. Geo. Harder

**Relationship to Owner:** one of the owners

Changes in the Past 25 Years: It is the same, however we are now farming with GPS self-steering tractors and combines.
Additional Information: This Centennial Farm land is one of four parcels, comprising all 662 acres of Section 4 of Township 24 North, Range 30 East, that were acquired by Katie Utt, her husband James Harris and her sisters, Nora and Abbie, around the time of statehood through the public land laws. All the land is still owned by family and all is currently operated by Terry Poe, his nephew Ryan and stepson Dean Thompson, under the name Poe Farms Joint Venture. Terry is a great-grandson of Katie Utt and James Harris.
Contact: Ryan Poe, 36477 Rd. V N.E., Hartline, WA 99135

Lincoln County

Bahr Ranches, Inc., est. 1883
Current Owner: Bahr Ranches and Cougar Ridge Inc.
Relationship to 1989 Owner: same
Current Operator: C. Daryll Bahr
Relationship to Owner: same

<table>
<thead>
<tr>

Changes in the Past 25 Years: Brothers C. Daryll Bahr and Robert D. Bahr split the ranch property into two entities for estate purposes. Legally, it is two entities, but they farm it as one farm. C. Daryl's portion contains the original 1883 parcel, and he lives in the original home.
Contact: C. Daryll Bahr, P.O. Box 592, Wilbur, WA 99185

Bodeau Bros. Farms est. 1881
Current Owner: Dean and Don Bodeau
Relationship to 1989 Owner: same
Current Operator: Dean, Don, Brian, Todd and Bradley Bodeau, Todd Luiten
Relationship to Owner: owners, sons and son-in-law
Changes in the Past 25 Years: The farming operation has grown: we have bought some land and leased more land. Dean’s sons and Don’s son-in-law are now farming.

Additional Information: 1964 Northwest Lincoln County Soil Conservation Farm. 2006 Washington State Small Business of the Year. 2006 Wilbur Chamber of Commerce Business of the Year. A video about wheat farming featuring Bodeau Bros. Farm was produced in 2013 for the Washington Grain Commission.

Contact: Dean Bodeau, 36408 Bodeau Rd. N., Wilbur, WA 99185

The Chilton/Linstrum Farm est. 1885

Current Owner: Jim and Donna Linstrum, Jeanetta Monfort
Relationship to 1989 Owner: Joseph Linstrum’s children
Current Operator: Jim and Darci Linstrum
Relationship to Owner: one of the owners

Changes in the Past 25 Years: CRP, transitioning back to cereal grains beginning in 2013. All of the farm will be back in production beginning in 2017.

Additional Information: Cousin Bradley Chilton Poole sold his one-quarter of the land to Jim Linstrum in 2007. Jim owns much of the ground and shares an undivided interest in a portion with his sisters, Jeanetta and Donna.

Contact: Jim Linstrum, 19030 Linstrum Rd. N., Davenport, WA 99122

The Dueber Farm est. 1886

Current Owner: Jim, John, Lyle and Tim Mann
Relationship to 1989 Owner: sons
Current Operator: Jim Mann
Relationship to Owner: one of the owners

Changes in the Past 25 Years: We got rid of the cows.

Additional Information: The Dueber and Mann farms are part of one farm operation. Anna Dueber, who became an owner of the Dueber Farm in 1932, married J.H. Mann, who owned the Mann Farm from 1921 to 1983. Their son, Jack Mann, and his wife Karene became owners of the Dueber Farm in 1966 and of the Mann Farm in 1983. Now the farms are owned by their sons.

Contact: Jim D. Mann, P.O. Box 15, Reardan, WA 99029

The Mann Farm est. 1889

Current Owner: Joyce Nonnemacher, Casey and Trea Nonnemacher, Chris Nonnemacher
Relationship to 1989 Owner: same, son and daughter-in-law, daughter
Current Operator: Casey Nonnemacher
Relationship to Owner: one of the owners

Changes in the Past 25 Years: Increased in size. Almost all the original buildings are still in use.

Additional Information: Frank passed away in 2013. Joyce and Chris
are still an active part of the farm. Casey, Trea, and their five children live in the Heldstab house, built in 1906, and still farm the original homestead.

*Contact:* Casey Nonnemacher, 24399 Janett Rd. N., Davenport, WA 99122

**The Gaffney Farm** est. 1880

This Centennial Farm is no longer owned by the Gaffney family. The farm left family ownership in about 1997. 

*Is the Land Still Farmed?* Yes. The farm was sold to Andy and John Rustemeyer, who still farm the land but do not live on the original farm property in the homestead parcel. The farm was sold because no one in the family was able to continue operating the family farm.

*Contact:* Kevin Gaffney, P.O. Box 96, Cheney, WA 99004

**The Garber Farm** est. 1880

*Current Owner:* Marie Wyborny and Jay and Diane Garber

*Relationship to 1989 Owner:* one of the owners, Jay is Harry Garber’s son, Diane is Jay’s wife.

*Current Operator:* Jason Gray

*Relationship to Owner:* friend

Wheat, malting barley, millet

Changes in the Past 25 Years: None until land ownership changes in 2013.

Additional Information: The undivided one-third shares of siblings Paul Martin, Amanda Jensen and Bertha Heikkinen’s land were divided in early 2014. As a result, Scott P. Jensen owns the 80-acre original parcel of the Centennial Farm. Paul’s sons, Larry and Randy Martin, continue to farm their father’s share of the land, which they own with their sister, Paulette Korns. They also farm the land owned by 99-year-old Chester Heikkinen, whose wife Bertha died in 2002. All three of the farming descendants of John P. Martin consider themselves deeply connected to the family farming heritage.

Contact: Randall D. Martin, 2088 Halverson Canyon Rd. E., Creston, WA 99117

Mielke Brothers, Inc.  est. 1883  Page 231

Current Owner: Mielke Brothers, Inc.
Relationship to 1989 Owner: same
Current Operator: Robert E. Mielke and Douglas C. Mielke
Relationship to Owner: same
Changes in the Past 25 Years: Carl and George Mielke passed away. Carl’s sons, Robert and Douglas, operate the farm. We run 450 head of Angus-cross cattle.

Additional Information: Over the last 25 years, Robert's wife Kristy and their children, Mallory, Mariah, Miranda and Maxwell, have helped keep the farm operating, as well as Douglas’s wife Debbie and their children, Nathan, Andrea, Karissa and Jeff. Carl's wife Dorothy, and George's wife Edwina, still live on the farm.

Contact: Robert E. Mielke, 30596 Mielke Rd. E., Davenport, WA 99122

The Peterson Farm, est. 1883

Current Owner: Carol and Christine Peterson
Relationship to 1989 Owner: daughters
Current Operator: Paul and Tamara Walker
Relationship to Owner: cousin

Changes in the Past 25 Years: Ownership passed from Lawrence and Betty Peterson to their daughters in 2000. All 1989 buildings are still in use. The circa 1890 barn is listed on the Washington State Historic Barn Register and is still in use for livestock. The four-room house, built in 1887, was incorporated into a newer home, built in 1982. The crib granary, built in 1941 by Lawrence and Norman, has been converted into a residence where Christi and her husband Dan Churchill live and operate a hobby farm.

Additional Information: Lawrence retired in 1990. His brother, Norman Peterson, operated the farm for one year, then retired. Norman's son, Bryan Peterson operated the farm until 1999. Lawrence and Norman's sister's son, Paul C. Walker and his wife Tamara are the fourth generation to farm this land, now part of a 6,960-acre operation. Their two sons are now fifth generation in the operation.

Contact: Christi Peterson-Churchill, 37515 Peterson Rd. N., Almira, WA 99103

The Robertson Farm, est. 1883

Current Owner: Becki A. Krause
Relationship to 1989 Owner: daughter
Current Operator: Robert B. Krause
Relationship to Owner: husband

Changes in the Past 25 Years: Cattle are no longer on the operation. GPS is now the norm. The fifth generation is now farming.

Additional Information: C. Jack Robertson passed away in August 2009.

Contact: Robert Krause, 20299 Robertson Rd. E., Creston, WA 99117

The Sheffels Farm, est. 1889

Current Owner: Corbett Draw Farms: L. Jerald Sheffels, Susan Hegneu, Cathy Inouye, David Sheffels, Roger Sheffels Trust
Relationship to 1989 Owner: same
Current Operator: Jerry Sheffels
Relationship to Owner: one of the owners
Changes in the Past 25 Years: We have changed the farming system twice, and now farm no-till direct seed.

Contact: Jerry Sheffels, 9523 Douglas Rd. E., Wilbur, WA 99185

The Smith Farm est. 1887

Current Owner: William A. Reinbold
Relationship to 1989 Owner: son
Current Operator: William A. Reinbold
Relationship to Owner: same

Changes in the Past 25 Years: The son of the current owner/operator joined the farming operation. One barn and blacksmith shop are still standing, but are not in use.

Contact: William Reinbold, 34301 Sunset Rd. E., Davenport, WA 99122

The Teel Farm est. 1885

Current Owner: Richard and Barbara Teel, Rawleigh and Katy Fisk
Relationship to 1989 Owner: same, daughter and son-in-law
Current Operator: Rawleigh and Katy Fisk
Relationship to Owner: two of the owners

Changes in the Past 25 Years: The Fisks have taken over day-to-day operations, with Richard and Barbara still very active in all farming decisions and operations.

Additional Information: Richard and Barbara expanded considerably in the ’80s and ’90s by purchasing and irrigating additional land. The Teels are still active and are working to develop and sell land. The homestead is intact and will remain so. The Fisks have purchased and are leasing the home piece and surrounding land. They have built a home on the original 160 acres. A county road where Richard and Barbara live has been renamed Teel Hill Road.

Contact: Katie and Rawleigh Fisk, 38700 Phar Rd. E., Davenport, WA 99122

The Unbewust Farm est. 1883

Is the Land Still Farmed? Yes. Current owners, Wilson and Wilson Farms, Inc., actively manage and direct farming of 780 acres. The other current owners, Gordon and Billie Herron, live on the homestead 20 acres, which have been in CRP the last three years. The Herrons had leased and farmed the Unbewust Farm from 1982 until it was sold in November 1989.

Additional Information: George and Anne Unbewust retired from farming in the 1960s and leased the farm to Alvin and Elsie Ottmar who operated it until the Herrons took over in 1982. In 2003, the Herrons hosted a 100th birthday party for the farmhouse that was built in 1903, inviting anyone who ever lived on the farm, descendants, and neighbors. It was a gala affair, complete with a birthday cake that had a picture of the original farmhouse before it was remodeled. The original house was “mail ordered” from Sears and materials shipped by train to the site.

Contact: Gordon and Billie Herron, P.O. Box 362, Harrington, WA 99134

Changes in the Past 25 Years: The Fisks have taken over day-to-day operations, with Richard and Barbara still very active in all farming decisions and operations.

Changes in the Past 25 Years: The son of the current owner/operator joined the farming operation. One barn and blacksmith shop are still standing, but are not in use.

Contact: William Reinbold, 34301 Sunset Rd. E., Davenport, WA 99122
